

GOLSPIE & ROGART WARD PROFILE

Sutherland Local Plan

SUTHERLAND LOCAL PLAN

The Highland Council is now preparing a new Local Plan for the whole of Sutherland. This will replace the following four existing plans:

- Golspie & Lairg (Lairg and Rogart areas)
- North West Sutherland
- Tongue and Farr
- South and East Sutherland

The purpose of the Local Plan is to guide the future development of the area. It covers all land use issues, including housing, business and industry, retailing, infrastructure, recreation and environmental protection. It looks at these issues together to make sure that the wider picture can be seen and guide change in the interest of the whole community.

WHY WE NEED YOUR INVOLVEMENT NOW

As local residents, you know your area better than anyone else and that is why it is important that you are involved in planning for its future. We are right at the beginning of the plan preparation process and we hope that this is just the beginning of your involvement.

To get you started thinking about the issues now, we have put together some of the key facts and figures that are currently available about Golspie & Rogart Ward (see map overleaf). These cover issues like population, employment and transport and start to paint a picture of the Golspie and Rogart area and the people who live there. Whilst we, as planners, can begin to pick some key issues from these figures, they don't tell us what is really important to the people who live in the area. You - the community - are the only people who know what is important to you and what would improve your community.

YOUR COMMENTS

If you would like to comment at this first stage in the Plan process, please do so by **16th December 2005**. You can use the Feedback Form provided or email comments to the address on the back page. There will be further opportunities to be involved in the Plan's preparation. Please see the proposed timetable on the back page for further information in this regard.
