Dear Mr MacLeod

Highland Wide Local Development Plan - Main Issue Report

We enclose completed questionnaire on behalf of our client Mr Sandy Manson, Newmore Farm, Alness.

We also take this opportunity to enclose a further copy of a rough sketch proposal for the expansion and development of Newmore that we forwarded to you some time ago.

The land in question is not viable as agricultural land and would make a natural extension to the village. The area is such that it is capable of incorporating low and high density housing along with community facilities such as a site for a new school. If considered and planned as a whole but developed over a number of years this has the potential of creating a well planned rural community providing much needed housing in the area.

Yours sincerely

George M Reynolds DA RIBA ARIAS
Director, Chartered Architect
for Reynolds Architecture Ltd
