q01a_agree_with_preferredoption yes
q01a_comments Every care should be taken to see that inner city development and regeneration takes place before or alongside peripheral development and it does not take second place to it resulting in inner city decline.

q02a_agree_with_preferredoption yes
q02a_comments We think bullet points 3 & 4 particularly important in the preferred option and care is needed to ensure there is no loss of a sense of community in areas subject to development.

q07_comments Bullet point 2 in the preferred option is seen as particularly important.
q08_agree_with_preferredoption yes
q08_comments While agreeing with aims to develop Wick and Scrabster harbour facilities, we feel development of Wick airport equally important. We also feel the development of tourism facilities should not be concentrated in John o Groats but development in Thurso should also be supported.

q11_agree_with_preferredoption yes
q11_comments Sounds good, especially bullet point 3 but will it really be seen to happen?
q12a_comments Not quite sure what is meant by the wording in the preferred option. Certainly we see no reason for inward immigration to decline in the near future but will there not be an increasing amount of existing housing become available as the post war ageing population bulge works its way out?

q15a_comments Care to support living at home is vital, but where this is inappropriate or cannot be sustained it would be nice to see a wider choice of alternatives, ie. not just own home or care home. We would support plans that encourage developments that provide something in between, eg assisted living in apartments/housing that can be rented, part owned or wholly owned.
