q09\_agree\_with\_preferredoption no  
 q09\_comments INVERGORDON and surrounds - better tourist industry: out door activity centre, aquatic centre, interactive tourist attraction like mini-beasts at Landmark - could have a Naval theme like holographs of warships/wildlife/marine life, etc, Theme Park; take the tanks down, clean and sustainable industry, a swing park for Inverbreakie Drive, a decent supermarket, a gaming Internet cafe in the High Street, flume park, activity centre on an Oil Rig, under cover market, manned state of the art public toilets, Arts Centre restoration, relocate naval base industry and build a proper welcoming port for visiting ship passengers along with hotel, casino, leisure pool, health, sports and beauty facilities, and sulubrious gardens with beautiful ornamental fountain, etc. NIGG - can be a world renowned recycling facility and other environmentally friendly industries

q19a\_agree\_with\_preferredoption no  
q19a\_comments We must safeguard the Highlands. We are in a unique part of the world and to industrialise it will take the uniqueness away. We want to protect and preserve the beauty and image of the Highlands as a place of romanticism and retreat.

q25a\_agree\_with\_preferredoption no  
q25a\_comments Energy from waste is a doomed industry. It is not sustainable, it is hazardous to health and it wastes vital resources. Zero Waste does NOT have to include EfW. There are many examples in the world where this is so. Speak to Tina McCaffery about this. She can be contacted at [REDACTED]
