4 Laggan Blackwood

This wood is part of the larger Laggan Forestry Trust Forest Company (LFTFC), which is a community-based forest. Highland Access Project (HAP) in partnership with Forest Enterprise (FE) has created a link between the two main car parks within the Blackwood, thus allowing safe access away from the busy A86.

5 Laggan Picnic Site

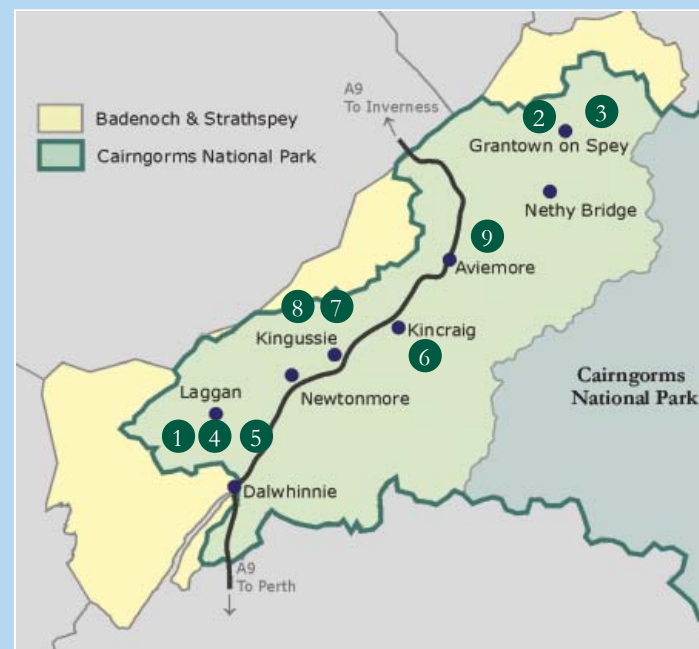

A pond has been created with a small board walk to encourage pond dipping events for children and a viewpoint with a bench to allow for a quiet moment. The viewpoint was created in conjunction with The Highland Council's Planning and Development Service. The small pond and waste ground area opposite the community shop and owned by the Laggan Trading Company has drastically improved! A series of all-ability paths has been created, the pond cleared out and re-sculpted and picnic tables provided. The community are really pleased with this project and intend to use it as a community resource for events and barbeques etc.

Laggan picnic site

Highland Access Project (HAP) assisted with the formalisation of their path network, through improved signage, leaflets and orientation boards.

The Laggan Community Association is actively involved and a keen walker from the community assisted with the signage plan. The LFTFC has additional exciting plans for the future, with a survey completed on the validity of mountain bike trails through their forests. The network should be 20-40 kms long and will rival any other competitors!

6 Kinraig

Uath Lochans – Pathworks & Boardwalk

The Highland Access Project has assisted Forest Enterprise with upgrading and improving the Uath Lochans Walk in Glen Feshie, near Kinraig. A link was created through path works and a boardwalk to provide a longer walk through the wonderfully colourful bogs in this very special place, which in turn links up with other walks and path networks provided by Forest Enterprise for the enjoyment of both locals and visitors alike.

Paths Around

7 Kingussie

Highland Access Project produced this leaflet which includes 8 walks in and around the Kingussie area including:

- ✓ The Glebe Ponds, Witch's Hill & The Cemetery;
- ✓ Through the Hazel Woods (Birch Woodie);
- ✓ The Jubilee Walk, The Dell & Ruthven Barracks;
- ✓ A Short Walk in Kingussie;
- ✓ Loch Gynack and Creag Bheag;
- ✓ Golf Course Circular;
- ✓ West Terrace Circular; and
- ✓ Tom Baraidh - A Walk Around the Hill.

8 Kingussie

Kingussie Health Map Cards

Simple cards with a simple message encouraging people to make a step towards getting out and about.

Paths Around

9 Aviemore

Glenmore All Abilities Path, Aviemore Cycle Route Health Map Cards & Orbital Signs

The Aviemore Orbital Walk incorporating the Speyside Way is better promoted to visitors through new signage. It is hoped in future to be able to expand this walk towards the river. Hopefully the National Park may take this forward.

2 Granttown-on-Spey

Granttown-on-Spey Health Map Cards

These simple cards are designed to fit into your pocket and to attract those who are maybe a bit wary of the great outdoors. They will hopefully encourage more people to get out and about.

Beachen Woods

3 (Mountain Bike route) and Anagach Woods

Other projects in the area include Beachen Wood in Granttown-on-Spey, which has enjoyed improved signage and drier routes! Anagach Woods will be assisted with improved signage and a new leaflet.
