

PUPIL RESPONSES TO THE SCHOOL ESTATES REVIEW OPTIONS FROM ARDROSS PRIMARY

Comment

Pupil

I would like the first option because I like the idea that all of the children in our town are taught in the same big school.

P5

I would like a 3 to 18 campus (option 1). This is because I like a really big school with lots of children. I can also walk or cycle to school.

[REDACTED]

P5

I think option 1 because it saves petrol.

[REDACTED]

P7

I think option 1 because it will save fuel and if there is a younger child and an older child, it will save driving to the primary school and then driving to Secondary school.

[REDACTED]

P6

I would like the 3 to 18 campus in each town because it would be an awesome school. It would be easier fuel wise if you had an older or younger sibling; you wouldn't have to use more fuel. It would have more better computers and technology stuff. Thank you

[REDACTED]

P6

I think that a 3 to 18 campus would be better, because the cost of refurbishing any academy is the closest to getting a new one.

[REDACTED]

P5

I think the 3 to 18 campus in each town because it saves petrol and would be easier to get to.

[REDACTED]

P6

I think option 1 because you just get the new school for the price of a refurb, better for going to the same school instead of going to the Academy 2 miles away.

[REDACTED]

P6

I think that the 3 to 18 campus in each town because the same people will be there and it is handier for parents.

[REDACTED]

P4

I think option 1 because it would be easier for parents who have more than one child, they would not have to waste petrol. You would meet lots of friends in the 3 to 18 campus.

[REDACTED]

P6

I think option 1 because I think it's a good idea for 2 schools to be in the same area because I like the idea of 3 year olds and 18's to go to the same place.

[REDACTED]

P4

I think that option 1 is the best because if the parents are going to drop off their children then they don't have to go to different schools.

[REDACTED]

P7

I think that option 1 is best so that if you have 1 kid in the Academy and 1 kid in nursery it would be so easy. Instead of taking 2 trips you would only need to take 1 trip to the same school.

[REDACTED]

P5

I think that the 3 to 18 campus is the best choice because it will cost lots of money but it will give people a better chance to meet others.

[REDACTED]

P7

I think option 1 because it will be easier for people with more siblings – they won't have to travel far.

[REDACTED]

P6

I think option 1, the 3 to 18 campus schools will be the best , because if you combine Invergordon and Alness together it will get violent because it is kind of like a rival between Alness and Invergordon. And, if you have more than one child in a family and ones in primary and secondary, you will only have to drive to the one destination.
