

Appendix 4: Vision/Strategy and Policy Assessments

This section contains detailed assessments of the vision and spatial strategy and preferred policies contained within CaSPlan and any reasonable alternatives which have been identified.

The assessment considers:

- What level of impact the vision/spatial strategy/policy/reasonable alternative may have in the short/medium/long term on each of the SEA Objectives and;
- At what scale the policy/reasonable alternative may have an impact.

The matrix also includes a justification of the assessment for each SEA objective. This is intended to guide the reader through the decision making process. To aid in this there are assumptions recorded at the beginning of each matrix, which have been made in the decision making process. This is recorded at the start rather than against each SEA Objective as the assumptions made apply to all the Objectives.

For consistency the following scoring system has been used through out the assessment matrices:

Significant Positive Impact	Minimal positive impact	Neutral Impact	Minimal negative impact	Significant negative impact	Possible Positive and Negative Impacts	Unknown Impact
++	+	=	-	--	+/-	??

Each assessment will be followed by a concise commentary on the findings of the assessment of the policy/reasonable alternative.

Please note that all assessments have been carried out assuming that the mitigation is already included in the policy.

The key considerations which are set out below will be used in the assessment of each of the policies/reasonable alternatives.

1 To conserve and where possible enhance biodiversity and accord to the protection of valued nature conservation habitats and species

Will it contribute to the protection and enhancement of biodiversity in Highland?

Will it have a detrimental effect on protected species?

Will it contribute to achieving local and regional biodiversity action plan targets?

Will habitats of importance for biodiversity be protected?

Will designated sites be protected?

Will it avoid the introduction or spread of non-native species?

Will habitat networks and corridors be maintained or enhanced?

2 To improve the living environment for all communities and promote improved health of the human population

Will it ensure better connectivity of open spaces?

Will it create or enhance green networks for people or wildlife?
Will it give additional benefit to human health?
Will human health be significantly reduced?
Will it ensure a healthier lifestyle for the residents within the settlements?

3 Safeguard the soil quality, geodiversity and improve contaminated land

Will it lead to the avoidance of areas of landslide/landslip?
Will it ensure the re-use of brownfield sites?
Will it prevent the sealing of good quality soil on sites?
Will it protect areas of importance for geodiversity in Highland?
Will carbon storage of peat land be protected?

4 Manage and reduce flood risk and protect the water environment

Will it ensure new developments are free from flooding?
Will it reduce the vulnerability of existing areas to flooding?
Will it enhance natural drainage?
Will it ensure SUDS are included in new residential developments?
Will it ensure development is supported by appropriate drainage infrastructure
Will it ensure that development has no detrimental impact on the water environment?
Will it ensure developments enhance the water environment where possible?

5 Reduce greenhouse gases and contribute to the adaptation of the area to climate change

Will it reduce the need to travel?
Will it ensure an increase in use of more sustainable transport methods?
Will it ensure better opportunities for walking and cycling?
Will it ensure more renewable energy production where appropriate?
Will it ensure energy efficiency is taken into consideration in new developments?
Will it ensure suitable connection to electricity infrastructure?
Will it reduce the risk of coastal inundation through sea level rising?

6 Manage, maintain and promote sustainable use of material assets

Will it support the minimisation of waste production?
Will it support the achievement of government targets through the use of the waste management hierarchy?
Will it ensure the waste management facilities comply with National Waste Strategy Objectives, thus ensuring only residual waste is land filled?

Will it ensure recovery of energy and heat from waste is considered where appropriate?

7 Protect and enhance, where appropriate, the area's rich historic environment

Will it protect and enhance the historic environment?

8 Protect and enhance the character, diversity and unique qualities of the landscape

Will local diversity and distinctiveness be maintained or enhanced?

Will the special qualities of designated areas be maintained or enhanced?

Will existing landscape character be maintained or enhanced?

Will visual impact be minimised?

Will scenic value be maintained or enhanced?

Will it safeguard the ability of people to experience qualities of wildness?

Explanation of Assessment Matrix

SEA Objective from Environmental Report

Any mitigation measures that will be required to avoid, reduce, remedy or compensate any negative effects identified, when required and who will be required to implement them

SEA Objective	Time Scale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1									

When will the effect become apparent: short (0-5yrs), medium (5-10yrs), or long term (10+yrs)

Will the approach have an impact locally (i.e. just within a settlement) or regionally (i.e. right across Caithness and Sutherland)

Caithness and Sutherland Vision and Spatial Strategy – What should Caithness & Sutherland be like in 2035?

Option 1 – The Preferred Vision

Assumptions made when assessing: Any proposal which meets the outcomes of the vision will also be assessed against all relevant policies in HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	+	+	+	+	+	<p>Justification</p> <p>The vision promotes high quality places where the natural, built and cultural heritage is celebrated and valued assets are safeguarded. A high quality natural environment provides safeguards for habitats and species. The vision may go some way in taking forward targets from the LBAPs.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
2	=	+	+	+	+	<p>Justification</p> <p>The vision promotes high quality places and successful, sustainable and socially inclusive communities where people want to live. It is likely that these will come into effect in the medium to longer term. It focuses on providing access to services in communities which helps to improve people's living environment. The vision does not specifically mention open space or green infrastructure however the promotion of high quality places and valued assets being safeguarded goes some way to ensuring that open spaces within communities are maintained. It is anticipated that the effect of the vision will be positive at both a local and regional scale when working cumulatively with access to the outdoors, open space and green networks policies contained within HwLDP.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021

3	+/-	+/-	+/-	=	=	<p>Justification</p> <p>The vision makes no explicit mention of soil quality, geodiversity or improving contaminated land however it does promote high quality places. It is not anticipated that the vision would lead to a reduction in either soil quality or geodiversity protection or that it would not improve contaminated land. These issues are covered in detail by policies of the HwLDP and will be considered when allocating sites (and providing developer requirements) and determining planning applications on a case by case basis.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
4	+/-	+/-	+/-	+/-	+/-	<p>Justification</p> <p>The ambition for development and growing communities promoted through the vision, will lead to an increased demand for water and therefore water abstraction which will need to be carefully managed through regimes outwith the control of the planning system. Wider policies within the HwLDP will address this SEA objective and deliver the vision and it will be assessed on a settlement by settlement basis.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
5	+	+	++	+	+	<p>Justification</p> <p>The vision does not specifically mention climate change however it includes measures to facilitate the adaptation to it and avoid increasing the rate in which it is occurring. It promotes sustainable communities with convenient access to services, enhanced communications infrastructure and development encouraged at existing or planned provision. It is likely that this will contribute to a slight positive impact in the short to medium term with significant impact in the longer term. The vision makes provision for support of renewables related economic development which may have a slight positive impact on this SEA objective at a local and regional level. These issues are covered in detail by HwLDP policies and will be considerations in allocating sites and determining planning applications on a case by case basis.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
6	+/-	+/-	+/-	=	=	<p>Justification</p> <p>The vision is unlikely to have any impact on this SEA objective, HwLDP policies and Supplementary Guidance will deal with sustainable use of material assets and in particular waste management.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021

7	+/-	+/-	+/-	+/-	+/-	<p>Justification The vision makes provision to celebrate the built and cultural environment and safeguard valued assets; however it does not specifically mention the enhancement of it. These sites will be safeguarded through HwLDP policy and other legislation. In some cases the re-use or enhancement of a historic building or development within the setting of a historic monument could have a negative impact.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
8	+	+	+	+	+	<p>Justification The vision through safeguarding valued assets, infers that landscape character, distinctiveness and unique qualities will be protected although there is no explicit mention of enhancement. However it is the policies of the HwLDP that will ensure that this is the case.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021

Commentary

The vision is based on four outcomes linked to the Single Outcome Agreement 3. Economic development is a key element of the vision and whilst this is not a consideration of SEA, the vision sets out how economic growth in the area can be achieved with little impact on the environment. It is anticipated that the vision will have no/little negative impact on the environment but have significantly positive effects in terms of SEA Objective 5.

Option 2 – An Alternative Vision - carry forward the existing HwLDP Vision for the Caithness and Sutherland area

Assumptions made when assessing: Any proposal which meets the outcomes of the vision will also be assessed against all relevant policies in HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	+	+	+	+	+	<p>Justification The vision promotes the protection and enhancement of habitats and species and recognises the benefits this brings to the area.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
2	+/-	+	+	+	=	<p>Justification The vision does not specifically mention living environment or improved health of the human population; it does mention a high quality of life and a regenerating place which could go some way to helping achieve this SEA Objective in the medium or longer term.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
3	+/-	+/-	+/-	=	=	<p>Justification The vision makes no explicit mention of soil quality or improving contaminated land however it does promote a high quality natural environment. It does promote the Sutherland Geo-park. It is anticipated that this will ensure a slight positive impact in the short, medium and long term for geodiversity but it is not anticipated that the vision would lead to a reduction in either soil quality or that it would not improve contaminated land. These issues are covered in detail by policies of the</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021

						HwLDP and will be considered when allocating sites (and providing developer requirements) and determining planning applications on a case by case basis.			
4	+/-	+/-	+/-	=	=	<p>Justification</p> <p>The vision makes no mention of managing and reducing flood risk or protecting the water environment however it does promote a high quality natural environment and adequate water and waste water networks. It is not anticipated that the vision would lead to increased flood risk or that it would not protect the water environment. These issues are covered in detail by policies of the HwLDP and will be considered when allocating sites and determining planning applications on a case by case basis.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
5	+	+	++	++	++	<p>Justification</p> <p>The vision does not make specific reference to climate change however it does mention promoting town centres as service centres, improved telecommunications and broadband coverage which would reduce the need to travel and increased passenger numbers on the far north railway line. It also promotes the area being an international centre of excellence for marine renewables. This will have a significant positive impact at both a local and regional scale. It is likely that each of these will have slight positive impact in the short to medium term but there is potential for significant positive impacts in the long term.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
6	+/-	+/-	+/-	=	=	<p>Justification</p> <p>The vision is unlikely to have any impact on this SEA objective, HwLDP policies and Supplementary Guidance will deal with sustainable use of material assets and in particular waste management.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021
7	+/-	+/-	+/-	+/-	+/-	<p>Justification</p> <p>The vision makes provision to make the area a place of outstanding heritage. The historic environment is not explicitly mentioned; however the historic environment will be safeguarded through other policies of the HwLDP and other legislation. In some cases the re-use or enhancement of a historic building or development within the setting of a historic monument could have a negative impact.</p>	Review vision and spatial strategy during next review of CaSPlan	THC	2021

8	+	+	+	+	+	Justification The vision promotes a place of outstanding heritage and the use of this for a high quality tourist industry should mean that the qualities of the landscape and the will be protected and enhanced and visual impact of development minimised. The landscape will be safeguarded through other policies of the HwLDP.	Review vision and spatial strategy during next review of CaSPlan	THC	2021
---	---	---	---	---	---	---	--	-----	------

Commentary

The vision sets out a comprehensive approach to ensuring the heritage of the area is safeguarded and, while not a consideration of SEA, demonstrates how economic growth of the area can be brought forward ensuring limited impact on the environment. It is anticipated that this vision would have little/no negative impacts on the environment but have significant positive effects in relation to SEA Objective 5.

Growing Settlements Policy

Option 1 – The Preferred Growing Settlements Policy

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	+/-	+/-	+/-	+/-	+/-	<p>Justification</p> <p>The policy does not specifically make provision for the protection and enhancement of biodiversity, habitats or species. Therefore it is not anticipated that this policy would make a contribution towards achieving LBAP targets locally or regionally. General policies within HwLDP make provision for this. However it does include avoiding net loss of amenity/recreational areas and locally important heritage features, which could include areas with local biodiversity value.</p>	Review the policy approach of CaSPlan and HwLDP	THC	2021
2	+	++	++	++	=	<p>Justification</p> <p>The policy aims to help sustain facilities in settlements which could potentially mean that facilities stay within settlements. By encouraging development within active travel distance of facilities you are providing an opportunity for people to walk/cycle to facilities rather than dispersed growth which would encourage them to use private cars. The policy also aims to avoid a net loss of amenity/recreational areas or locally important heritage feature. By maintaining open space you are providing opportunities for people to improve/maintain their health. It is considered that this policy will have more of an impact at the local level as opposed to a regional level. It is</p>	Review the policy approach of CaSPlan and HwLDP	THC	2021

						anticipated that it would have a slight positive impact in the short term and a significant positive effect in the medium and longer term.			
3	=	=	=	=	=	Justification This policy does not address soil quality, geodiversity or contaminated land; these are dealt with via general policies in the HwLDP.	Review the policy approach of CaSPlan and HwLDP	THC	2021
4	+	+	+	+	+	Justification The policy approach considers the capacity of the water and sewerage networks ensuring that development supported by this policy will be supported by appropriate drainage infrastructure and where possible, improved infrastructure. This will help to ensure there is no detrimental impact on the water environment. The issue of flooding is not directly covered by this policy; this is dealt with via general policies in the HwLDP.	Review the policy approach of CaSPlan and HwLDP	THC	2021
5	+	++	++	++	+	Justification The issues of climate change and renewable energy are not directly addressed by this policy however the policy is encouraging growth in defined settlements. By encouraging development within active travel distance of facilities you are providing an opportunity for people to walk/cycle to facilities rather than dispersed growth which would encourage them to use private cars. This will have very localised impacts which may be significantly positive in the medium to long term.	Review the policy approach of CaSPlan and HwLDP	THC	2021
6	=	=	=	=	=	Justification The policy does not directly impact on this SEA objective.	Review the policy approach of CaSPlan and HwLDP	THC	2021
7	+/-	+/-	+/-	+/-	+/-	Justification The policy aims to ensure that no development would have an adverse impact on any locally important heritage feature; it does not specifically deal with enhancement. In some cases the re-use or enhancement of a historic building or development within the setting of a historic monument could have a negative impact. Taken in combination with the general policies of the HwLDP, this may have a positive impact at a local level.	Review the policy approach of CaSPlan and HwLDP	THC	2021

8	+	+	+	+	+	<p>Justification</p> <p>The policy considers how new developments would effect locally important heritage features such as important public viewpoints/vistas. The policy approach does not consider the regionally and nationally important landscape designations such as Special Landscape Areas or National Scenic Areas. This is dealt with via the general policies of the HwLDP. The policy does seek to support development which is similar in terms of spacing, character and density with a settlement; this should go some way in helping to ensure landscape character in maintained and visual impact of development minimised. In addition by the considerations set out in this policy the cumulative impact on the landscape of existing development and new development is taken into consideration.</p>	Review the policy approach of CaSPlan and HwLDP	THC	2021
---	---	---	---	---	---	---	---	-----	------

Commentary

This policy approach is likely to have significant positive environmental effects on SEA Objectives 2 and 5. It is not anticipated that there will be any negative environmental effects from this policy approach.

Option 2 – An Alternative approach – More rigid approach

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	+/-	+/-	+/-	+/-	+/-	<p>Justification</p> <p>The policy does not specifically make provision for the protection and enhancement of biodiversity, habitats or species. Therefore it is not anticipated that this policy would make a contribution towards achieving LBAP targets locally or regionally. General policies within HwLDP make provision for this. However it does include avoiding net loss of amenity/recreational areas and locally important heritage features, which could include areas with local biodiversity value.</p>	Review the policy approach of CaSPlan and HwLDP	THC	2021
2	+	++	++	++	=	<p>Justification</p> <p>The policy aims to help sustain facilities in settlements which could potentially mean that facilities stay within settlements. By encouraging development within active travel distance of facilities you are providing an opportunity for people to walk/cycle to facilities rather than dispersed growth which would encourage them to use private cars. The policy also aims to avoid a net loss of amenity/recreational areas or locally important heritage feature. By maintaining open space you are providing opportunities for people to improve/maintain their health. It is considered that this policy will have more of an impact at the local level as opposed to a regional level. 8	+	+	+	+	+	Justification The policy considers how new developments would effect locally important heritage features such as important public	Review the policy approach of CaSPlan and	THC	2021

					viewpoints/vistas. The policy approach does not consider the regionally and nationally important landscape designations such as Special Landscape Areas or National Scenic Areas. This is dealt with via the general policies of the HwLDP. The policy does seek to support development which is similar in terms of spacing, character and density with a settlement; this should go some way in helping to ensure landscape character is maintained and visual impact of development minimised. In addition by the considerations set out in this policy the cumulative impact on the landscape of existing development and new development is taken into consideration.	HwLDP		
--	--	--	--	--	--	-------	--	--

Commentary

This approach is not dissimilar to the preferred approach therefore the assessment results are the same. The exception is that because all criteria must be met then the likelihood of negative impacts is lessened. This policy approach is likely to have significant positive environmental effects on SEA Objectives 2 and 5. It is not anticipated that there will be any negative environmental effects from this policy approach.

Option 3 – An Alternative approach – More flexible approach

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	+/-	+/-	+/-	+/-	+/-	<p>Justification The policy does not specifically make provision for the protection and enhancement of biodiversity, habitats or species. Therefore it is not anticipated that this policy would make a contribution towards achieving LBAP targets locally or regionally. General policies within HwLDP make provision for this. It does however include avoiding net loss of amenity/recreational areas and locally important heritage features, which could include areas with local biodiversity value. However while this may be the case, under this approach this criteria does not need to be met therefore it is unknown whether there would be positive or negative effects on this SEA Objective arising from development.</p>	Review the policy approach of CaSPlan and HwLDP	THC	2021

Commentary

It is not anticipated there will be any negative or significantly negative effects arising from this policy approach. However given that this alternative approach means only some of the criteria need to be met then it is not possible to determine whether there would be positive or negative effects from the policy.

Proposed Policy - Promoting And Protecting Settlement Centres

Option 1 - Preferred Policy Approach

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	=	=	=	=	=	<p>Justification It is not considered that this policy will have an impact on the SEA Objective as the policy is solely concerned with directing growth to town centres.</p>	Review the policy approach through CaSPlan	THC	2021
2	+	+	+	+	=	<p>Justification By directing development to town centres, services that people need will be available in a location which is accessible and it may encourage people to walk to the facility rather than use private transport. It is likely that this policy will have a slight positive impact at a local level but it is unlikely to have any impact on a regional level as the impact will be on a settlement by settlement basis.</p>	Review the policy approach through CaSPlan	THC	2021
3	+	+	+	+	+	<p>Justification It is not likely that this policy will have a direct impact on geodiversity. However by encouraging re-use and redevelopment of existing sites and buildings there could be a positive impact on the improvement of contaminated land and it will have an indirect positive impact on soil quality as it is encouraging development of brownfield sites rather than the use of greenfield sites.</p>	Review the policy approach through CaSPlan	THC	2021

4	=	=	=	=	=	Justification It is not considered that this policy will have an effect on the SEA Objective as the policy is solely concerned about directing growth to town centres.	Review the policy approach through CaSPlan	THC	2021
5	+	+	+	+	=	Justification By encouraging development to town centres there would be opportunity to have development in the most accessible locations by public transport, walking and cycling which would help to reduce the need to travel by private car. It is likely that this policy will have a slight positive impact at a local level but it is unlikely to have any impact on a regional level as the impact will be on a settlement by settlement basis.	Review the policy approach through CaSPlan	THC	2021
6	+	+	+	++	+	Justification This policy encourages the re-use and redevelopment of existing sites and buildings in town centres. Coupled with policies in HwLDP, This will have a significant positive impact on a local scale as it encourages the re-use of vacant buildings.	Review the policy approach through CaSPlan	THC	2021
7	+/-	+/-	+/-	+/-	+/-	Justification This policy may have a positive impact on this SEA Objective. The re-use of historic buildings in town centres may have a positive impact if it is done correctly and sympathetically.	Review the policy approach through CaSPlan	THC	2021
8	=	=	=	=	=	Justification It is not considered that this policy will have an impact on the SEA Objective as the policy is solely concerned with directing growth to town centres.	Review the policy approach through CaSPlan	THC	2021

Commentary

This policy is likely to have some positive environmental effects but have significant positive effects in relation to SEA Objective 6. Due to the nature of the policy there are many SEA Objectives where there will be little or no impacts. However the application of this policy in combination with the general policies of the Highland wide Local Development Plan, it is likely that the overall effect would be positive.

Option 2 - More Flexible Approach

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	=	=	=	=	=	<p>Justification It is not considered that this policy approach will have an impact on the SEA Objective as the policy is solely concerned with directing growth to town centres.</p>	Review the policy approach through CaSPlan	THC	2021
2	+	+	+	+	=	<p>Justification It is anticipated that this approach will have a positive effect on this SEA Objective in the short, medium and long term due to the sequential approach to site location set out in Policy 40 of the HwLDP which primarily directs retail development to city/town/village centres. This should provide better opportunities for active travel to these facilities which may lead to a healthier lifestyle for the human population. The positive effect will be at local level.</p>	Review the policy approach through CaSPlan	THC	2021
3	+	+	+	+	+	<p>Justification It is anticipated that continuing to rely on HwLDP general policies will have a positive effect on this SEA Objective in the short, medium and long term by encouraging new retail development towards existing centres, which may mean re-use of brownfield land rather than greenfield land.</p>	Review the policy approach through CaSPlan	THC	2021
4	=	=	=	=	=	<p>Justification It is not considered that this approach would have any effect on this SEA Objective as it is solely concerned with directing retail development towards town/village centre locations.</p>	Review the policy approach through CaSPlan	THC	2021
5	+	+	+	+	=	<p>Justification This approach encourages retail development towards</p>	Review the policy approach through	THC	2021

						town/village centres where the opportunity to use public transport is generally improved and it is likely that the location will promote active travel. It is likely that this will have an impact at a local level, but not a regional level as the impact will be on a settlement by settlement basis.	CaSPlan		
6	+/-	+/-	+/-	+/-	+/-	Justification It is unlikely that this approach will have any direct effect on the SEA Objective. However proposals for new retail development will be expected to make a contribution towards the provision of appropriate waste management.	Review the policy approach through CaSPlan	THC	2021
7	+/-	+/-	+/-	+/-	+/-	Justification It is unlikely that this approach will have a direct effect on this SEA Objective.	Review the policy approach through CaSPlan	THC	2021
8	=	=	=	=	=	Justification It is not considered that this approach would have an effect on the SEA Objective.	Review the policy approach through CaSPlan	THC	2021

Commentary

This approach means there is no additional policy in CaSPlan, with a continuing reliance on using the general policies of the HwLDP, particularly Policy 40. It is anticipated that the approach will have a positive effect on SEA Objectives 2, 3 and 5. This is mainly due to the approach directing new retail development towards town/village centres.

Option 3 – More Rigid Approach

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	=	=	=	=	=	<p>Justification It is not considered that this policy will have an impact on the SEA Objective as the policy is solely concerned with directing growth to town centres.</p>	Review the policy approach through CaSPlan	THC	2021
2	+	+	+	+	-	<p>Justification By directing development to town centres, services that people need will be available in a location which is accessible and it may encourage people to walk to the facility rather than use private transport. It is likely that this policy will have a slight positive impact at a local level but it is unlikely to have any impact on a regional level as the impact will be on a settlement by settlement basis.</p>	Review the policy approach through CaSPlan	THC	2021
3	+	+	+	+	+	<p>Justification It is not likely that this policy will have a direct impact on geodiversity. However by encouraging re-use and redevelopment of existing sites and buildings there could be a positive impact on the improvement of contaminated land and it will have an indirect positive impact on soil quality as it is encouraging development of brownfield sites rather than the use of greenfield sites.</p>	Review the policy approach through CaSPlan	THC	2021
4	=	=	=	=	=	<p>Justification It is not considered that this policy will have an effect on the SEA Objective as the policy is solely concerned about directing growth to town centres.</p>	Review the policy approach through CaSPlan	THC	2021

5	+	+	+	+	=	Justification By encouraging development to town centres there would be opportunity to have development in the most accessible locations by public transport, walking and cycling which would help to reduce the need to travel by private car. It is likely that this policy will have a slight positive impact at a local level but it is unlikely to have any impact on a regional level as the impact will be on a settlement by settlement basis.	Review the policy approach through CaSPlan	THC	2021
6	+	+	+	++	+	Justification This policy encourages the re-use and redevelopment of existing sites and buildings in town centres. Coupled with policies in HwLDP, This will have a significant positive impact on a local scale as it encourages the re-use of vacant buildings.	Review the policy approach through CaSPlan	THC	2021
7	+/-	+/-	+/-	+/-	+/-	Justification This policy may have a positive impact on this SEA Objective. The re-use of historic buildings in town centres may have a positive impact if it is done correctly and sympathetically.	Review the policy approach through CaSPlan	THC	2021
8	=	=	=	=	=	Justification It is not considered that this policy will have an impact on the SEA Objective as the policy is solely concerned with directing growth to town centres.	Review the policy approach through CaSPlan	THC	2021

Commentary

This approach is similar to the preferred approach except that it would apply to all settlements in the plan area and not just the ones listed in the preferred approach. Therefore the assessment results are the same. This policy is likely to have some positive environmental effects but have significant positive effects in relation to SEA Objective 6. Due to the nature of the policy there are many SEA Objectives where there will be little or no impacts. However the application of this policy in combination with the general policies of the Highland wide Local Development Plan, it is likely that the overall effect would be positive.

Special Landscape Areas

Option 1 – The Preferred approach – Examine all SLA boundaries and make amendments as appropriate

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale
1	=	=	=	=	=	<p>Justification It is unlikely that the SLA boundary will have any effect on this SEA objective as it is dependant on the application of policy within the area. The policy approach which will be taken with regard to development within SLAs has been subject to SEA via the Highland wide LDP.</p>	Review the boundaries and the related policy approaches of HwLDP	THC	HwLDP review to commence 2015
2	=	=	=	=	=	<p>Justification It is unlikely that the SLA boundary will have any effect on this SEA objective as it is dependant on the application of policy within the area. 7	=	=	=	=	=	Justification It is unlikely that the SLA boundary will have any effect on this SEA objective as it is dependant on the application of policy within the area. The policy approach which will be taken with regard to development within SLAs has been subject to SEA via the Highland wide LDP.	Review the boundaries and the related policy approaches of HwLDP	THC	HwLDP review to commence 2015
8	+	+	+	+	+	Justification It is unlikely that the SLA boundary will have any effect on this SEA objective as it is dependant on the application of policy within the area. The policy approach which will be taken with regard to development within SLAs has been subject to SEA via the Highland wide LDP. The preferred approach will lead to suitable expansion of the SLAs in line with a sound methodology as set out in the SLA Citations. This will help to have a robust SLA boundary to support the policy approach and in turn will help to afford greater protection to the regionally important landscape characters and qualities for which these areas are designated.	Review the boundaries and the related policy approaches of HwLDP	THC	HwLDP review to commence 2015

Commentary

It is unlikely that this approach will have an effect on any of the SEA Objectives other than the one related to landscape character and qualities where there may be a minimal positive effect at a local and regional scale as the protective policy approach from the Highland wide Local Development Plan will be applied to a wider area.

Option 2 – An alternative - Carry forward all the SLAs unchanged from the HwLDP

Assumptions made when assessing: All proposals will be assessed against all relevant policies in the HwLDP, Caithness and Sutherland LDP and Supplementary Guidance.

SEA Objective	Timescale			Magnitude		Justification and Assumptions	Mitigation		
	Short Term	Medium Term	Long Term	Local	Regional		Measure	Lead Authority	Proposed Timescale

Commentary

It is unlikely that this approach will have an effect on any of the SEA Objectives as there will be no changes to any of the boundaries. The protective policy approach from the Highland wide Local Development Plan will be applied to the same area as present.
