

DESIGN CONCEPT STATEMENT FOR MARQUEES/TENTS

EVENT	
DESCRIPTION OF STRUCTURE	
LOCATION	
CERTIFICATE REFERENCE NO	

I,....., hereby certify as a suitably competent person on behalf of the licence holder that the structural design for the following marquee/tented structure/s:-

.....

has/have been designed and/or verified by a suitably qualified Structural or Civil Engineer, having taken into account the design wind, live and dead loadings, the maximum slope on which the structure can safely be erected, details of securing the structure against wind uplift and any particular foundation requirements.

The relevant guidance referred to in the document 'Temporary Demountable Structures Guidance on procurement, design and use, Third edition 2007' issued by the Institution of Structural Engineers will be followed with regard to the specific requirements of the marquee or tent.
