

Economic Development Area—GEORGEMAS JUNCTION

Georgemas Junction was identified in the Spatial Strategy of the MIR as an important transport and economic site. During the consultation several people suggested it should be allocated as an Economic Development Area due to the existing and planned investment in the site.

ISSUES	PLACE MAKING PRIORITIES
<ul style="list-style-type: none"> • Strategic rail freight and transport hub • Modern purpose built railhead freight terminal and other infrastructure • Biomass fuel processing and energy plant supported in principle by the Council 	<ul style="list-style-type: none"> • Offers significant potential to increase rail freight to Caithness which would take pressure off the A9 trunk road
