4.1 How do you want the West Highland and Islands area to change over the next 10–20 years?

An outer breakwater with associated land reclamation is urgently required to enable future expansion at Mallaig. The rock source to create the breakwater is available locally and if utilised, sites cleared by this rock removal will be available for much needed housing development.

Extra car parking is also required.

The Authority's aim is for Mallaig Harbour to be known and recognised as The Gateway Access to Marine Activity on the west coast of Scotland.
