**4.1 How do you want the West Highland and Islands area to change over the next 10–20 years?** I would like to see the continuation of seaward views being protected in Kildonan. This would obviously result in no development on the west side of the township road.

**4.2 What do you think are the best, existing assets and characteristics of the area? Think of your favourite landscapes, settlements, journeys, events and meeting places.** Crofting has returned to the township and I would request that Highland Council take cognizance of this and help protect what is left of croft land. In the past both the council and the Crofters Commission had indifferent views towards crofting in Kildonan and this allowed speculators to cause irreparable damage on some crofts.
