**Select a topic to comment on** Tell us your vision for the area

**4.1 How do you want the West Highland and Islands area to change over the next 10–20 years?**

You can forget about any major Development Plan in Lochcarron until you have sorted out the road network in this area. Your priority should be to decide which route the new Strome Ferry by-pass will take and where the necessary finance will come from. these problems have been discussed for over 20 years we do not want to wait another 20 years for the solution. 2) Encourage research into developing electricity generation by tidal power, do not just concentration windpower. The tide is more reliable and predictable than the wind is.
