Subject: Highland-wide LDP - Reporters monthly update

Brian

I note below the reporters' monthly progress update for September:

"The reporters held two hearing sessions on 27 and 28 September. Topics considered at the hearings include spatial strategy, population growth, housing land requirements and proposed developments in the Inverness-Nairn corridor. In all, some dozen representees took part in the hearings. The hearings have clarified and extended the reporters' understanding of the issues that were under debate.

The reporters have continued to seek additional written information from the council and from those parties who have made representations. They have completed unaccompanied inspections of a number of sites to which reference is made in representations. At this stage they do not envisage there being a need for any inquiry sessions or further hearings. Sections of the report are now being drafted."
