Inverness West Link Stage 1 (east of the canal) and the Canal Parks Enhancement has been contracted to Wills Bros Civil Engineering Ltd with a value of £22.5 million. The works are scheduled to start in early May 2016 and will be completed in late 2017.

The West Link will provide the following benefits to the City:

- Significantly reduce congestion in the city centre.
- Reduce carbon emissions and pollution.
- Enhance active travel links.
- Remove traffic delays with crossing the canal.
- Speed up journey times from the A96 to the A82.
- Enable housing development and associated developer contributions.
- Provide construction employment and bring economic benefits.
- Provide substantial cost-benefit worth nearly £4 to every £1 of public investment.
- Stage 2 will be completed in 2020 providing vastly improved amenity and leisure facilities at the Torvean golf club, the rugby club and a sports hub.

More information on the West Link can be found on The Highland Council website: www.hIGHLAND.gov.uk/invernesswestlink
