Site Forms

YOUR DETAILS			
Your Name (and organisation	John Hillis		
if applicable)	Strutt and Parker		
Your Address / Contact	St. Nicholas House		
Details	68 Station Road		
	Banchory		
	Aberdeenshire AB31 5YJ		
Landowner's Name (if			
known / applicable)			
Agent (if applicable)	John Hillis Strutt and Parker		
Agent's Address / Contact	Post: as above		
Details (if applicable)	Direct Dial: 01330 826821		
	Mobile: 07834752165		
	Email: john.hillis@struttandparker.com		

DETAILS OF SITE SUGGESTED	
Site Address	Parcels of Land in Abriachan
Site/Local Name (if different	
from above	
Site Size (hectares)	1.951
Grid Reference (if known)	NH5634
Proposed Use (e.g. housing,	Housing – 6 Units in Total
affordable housing,	
employment, retail, waste,	
gypsy traveller, utility,	
community, retained public	
open space)	
Proposed Non Housing	Not applicable
Floorspace / Number of	
Housing Units (if	
known/applicable)	
Мар	(please attach a map of the site ideally
	on an Ordnance Survey base)

If you wish to suggest a site that should <u>not</u> be built on, fill in this form			
REASONS WHY YOUR SITE	SHOULD BE SAFEGUARDED FROM BUILDING		
How do the public			
enjoy the space - e.g.			
used for dog walking,			
children's play?			
What makes the site			
more special than other			
areas in the			
village/town?			
Does the site have			
attractive or rare			
features such as mature			
trees, historical			
significance or			
protected wildlife?			

Landowners, developers and/or agents wishing to suggest a site should fill in the following form <u>and</u> as much as possible of the strategic environmental assessment form (at the end of this document) which assesses the environmental effects of possible development sites.

If you wish to suggest a site that should be built on, fill in this form				
REASONS FO	R YOUR DEVELOPMENT SITE SUGGESTION			
How can the site be serviced? (give details of proposed access, foul drainage, surface water and water supply arrangements)	Area 1 - Access: Directly from the Public Road - Foul Drainage: Septic Tank/ Tanks - Surface Water: To SUDS System - Water Supply: Private Area 2 - Access: From the Public Road using a private track - Foul Drainage: Septic Tank/ Tanks - Surface Water: To SUDS System - Water Supply: Private			
	FORM CONTINUES BELOW			

REASONS FOR YOUR DEVELOPMENT SITE SUGGESTION			
What are the site's constraints and how can they be resolved or reduced?	Access to Area 2 is constrained. The legal rights exist in favour of the owners of the land, sufficient to enable development to proceed.		
(e.g. does the site flood, are there protected species present, will good farmland be lost, will the local landscape be affected, will valued trees be felled, are any other heritage features likely to be affected?)			
What benefits will result to the wider community from the site's development? (e.g. will there be more or better jobs, will the land be put to a more productive use, will the development increase infrastructure capacity for others, will more affordable houses result, is there an unmet demand for the development?)	The land is already within the Abriachan Settlement Development Area in terms of the Inverness Local Plan. Development of it would represent the natural expansion of an existing town which occupies as reasonably high status within the Settlement Hierarchy. This relieves development pressure on the wider countryside.		
What impact will there be on travel patterns from the site's development? (e.g. will more or less people engage in active and healthy travel (walk / cycle) or go by public transport as a result of the site's development rather than travel by private car?)	As the land is in the village of Abriachan development of the site, once occupied could create and sustain demand for local public transport thereby reducing the need for travel to local services by car.		
Is the site well connected? (e.g. will the average travel time to community and commercial facilities reduce or increase as a result of the site's development, is the proposed use compatible with existing / proposed surrounding uses?)	The site is within the settlement of Abriachan		
Is the site energy efficient? (e.g. will the site allow for energy efficient siting, layout, building design and local renewable energy source connection?)	Yes		
What other negative impacts will the development have and how will they be resolved or offset? (e.g. will the site's development increase any form of pollution or decrease public safety?)	None		

STRATEGIC ENVIRONMENTAL ASSESSMENT FORM

Landowners, developers and/or agents wishing to suggest a site should fill in as much as possible of the following form. Strategic environmental assessment of local development plan sites is now a statutory requirement and considers the possible environmental effects of development proposals. We will check your answers and fill in any gaps.

No.	Issue	Detailed Explanation	Answer	Any Proposed Mitigation Measures (how will you reduce or offset the effects of your development?)
1	a) Will the site safeguard any existing open space within the area?b) Will the site enable high quality open space to be provided within the area?	Will the site have any impact on useable public open space (such as parks, playing fields etc) or any opportunities to create additional public open space?	Yes	The proposed density of development, 6 units in total will safeguard open space within the development in line with existing supplementary planning guidance.
2	Will the site encourage and enable provision for active travel (walking, cycling and public transport use)?	Is any part of the site within 400m straight line distance of any community/commercial building? or will development provide a community/commercial building within walking distance of existing residential areas? - Are there opportunities to create new walking/cycling routes or improve existing routes?	Yes	The site is within the settlement of Abriachan
3	Does the site provide an opportunity for you to provide a financial contribution towards encouraging more sustainable travel patterns?	For example, can a subsidy to a local bus route be provided?	Yes	Subject to appropriate Planning Gain Assessment
4	Will the site involve "off site" road improvements that will contribute to road safety?	Is the site likely to improve the local road network such as junctions or crossings?	Yes	Access to both sites will be by improving existing accesses to the main road
5	Is there scope for road	Will development incorporate on-site traffic	Not applicable	

	safety measures as part of the development of the site?	calming measures (e.g. speed bumps) or street lighting? Will it incorporate the principles of Designing Streets available via: http://www.scotland.gov.uk/Publications/2 010/03/22120652/0		
6	Is the site near any existing "bad neighbour" uses?	Will the site be negatively affected by any neighbouring use? (bad neighbour uses include those that affect residential property by way of fumes, vibration, noise, artificial lighting etc). Is the site affected by any of the Physical Constraints identified in the Council's Physical Constraints: Supplementary Guidance?	No	
7	Are there any contaminated land issues affecting the site?	Are you aware if the site has been previously used for industrial or any other uses likely to cause contamination?	No	
8	a) Is the site on derelict, vacant or other land that has previously been used?	a) Has the site been identified in Scottish Government's Vacant and Derelict Land Survey (which can be found here: http://scotland.gov.uk/Publications/2010/01/26135819/0)or has the land got an existing use?	No	
	b) Is the site on greenfield land?	b) Will the site be located on presently undeveloped land e.g. presently or capably used for agriculture, forestry or amenity purposes?		
9	Is the site within the current settlement boundary?	Is the site within any identified settlement boundary in the Local Plan? Is it allocated for any uses?	Yes – Abriachan Settlement Development Area	Area 1 – BP2 Area 2 – Zoned Housing Land
10	Will the site affect the distinctiveness and special qualities of the present landscape character or affect any landscape designation?	Does the site conform with the Landscape Capacity Assessment (if available)? Will the site result in the removal of valued landscape features or negatively affect any key views? Is it located within or would otherwise affect a National Scenic Area or Special Landscape Area, having regard to their special qualities?	Yes	

11	Will the site affect any	Are you aware if the site is inside or likely to	No	
	areas with qualities of	affect an area of Wild Land? (These areas are		
	wildness? (that is land in	identified on Map 3 of SNH's Policy		
	its original natural	Statement, Wildness in Scotland's		
	state?)	Countryside) and areas of Remote Coast		
		identified by the Council, or an area of		
		wildness identified in the draft Wild Land		
		Supplementary Guidance?		
12	Will the site affect a	Is the site inside or likely to affect the	No	
	conservation area?	character of a confirmed Conservation Area?		
13	Will the site impact on	Is there a listed building or a part of the	No	
	any listed building	setting "area" of a listed building within the		
	and/or its setting?	site?		
14	Will the site affect a site	Is any part of the site inside the outer	No	
14	identified in the	boundary of an Inventory "entry" or will the	INO	
		site affect the setting of an "entry"?		
	Inventory of Gardens	site affect the setting of all lentry ?		
	and Designed			
	Landscapes?			
15	Will the site affect any	Does the site contain any features identified	No	
	locally important	in the HER? If yes, will the site affect the		
	archaeological sites	feature?		
	identified in the Historic			
	Environment Record?			
16	Will the site impact on	Is there any SAM within the site boundary or	No	
	any Scheduled (Ancient)	will a SAM be affected?		
	Monument and/or its			
	setting?			
17	a) Will the site affect any	a) Is any part of the site inside or likely to	No	
	natural heritage	affect the designation (SAC, SPA, SSSI, NNR,		
	designation or area	Ramsar) or Local Nature Conservation Site?		
	identified for its			
	importance to nature			
	conservation?			
	conscivation:			
	b) Will the site affect any	b) Is any part of the site within or likely to		
	other important habitat	affect non-statutory features identified as		
	•	·		
	for the natural heritage?	being of nature conservation importance e.g.		

		Ancient, Semi-Natural or Long-Established Woodland Inventory sites, priority BAP habitats, habitats included on the Scottish Biodiversity List, non-designated habitats listed in Annex 1 of EC Habitats Directive?		
18	a) Will the site affect any protected species?	a) Will the site affect any European Protected Species, Badgers and species (birds, animals and plants) protected under the Wildlife and Countryside Act 1981 as amended. If such a species may be present on or near the site, a survey should be carried out to inform this assessment (for which a licence from SNH may be required)	No	
	b) Will the site affect any other important species for the natural heritage?	b) Will the site affect species listed in the UK and Local BAPs, the Scottish Biodiversity List and relevant annexes of the EC Habitats Directive?		
19	Is the site proposed to provide any form of renewable energy?	For example, will the site provide or be capable of providing a district heating system, solar panels of a wind turbine?	Yes	In line with Building Standards Regulations
20	Is any part of the site at risk from fluvial or coastal flooding as shown on SEPA's flood map or from local knowledge?	Are you aware of any part of the site being within the 1 in 200 year flood risk contour as identified by SEPA? (which can be found here: http://www.sepa.org.uk/flooding/flood_risk_maps/view_the_map.aspx)	No	Likely, however, that SEPA will require an FRA to establish site free from 1:200 year flood risk plus 5m
21	Will development of the site result in the need for changes in land form and level? If yes, how will soil and drainage issues be addressed?	Will there by any change in rate, quantity, quality of run-off plus groundwater impact on or off site? If so, will these affect priority habitats, especially blanket bog?	No	
22	Is there a watercourse, loch or sea within or adjacent to the site? If yes, how will the water	Will there be any culverting, diversion or channelling of existing watercourses?	Yes	By a suitable construction method statement and SUDS system

	environment be			
	protected from			
	development?			
23	Will the site offer opportunities for sustainable waste management?	Will the waste produced by the site be minimised and processed close to source in a sustainable way?	Yes	
24	Can the site be connected to the public water and sewerage system?	Can the site be connected at reasonable cost? If not, what alternative is proposed?	No	
25	Will the site require alteration to the local landform?	Can the site (including access) be developed without significant re-contouring etc.? Will access tracks and parking areas have significant cut and fill?	No	
26	Will the site affect or be affected by coastal erosion or natural coastal processes?	This will be noted on any relevant shoreline management plan.	No	
27	Is the site sheltered from the prevailing wind and does it have a principal aspect between SW and SE?	Will development make best use of the site in terms of energy efficiency?	Yes	
28	Will the site have any impact upon local air quality?	Is the site near areas of employment or close to public transport? Such developments are less likely to result in additional traffic which may contribute to air pollution.	Yes	Positive Impact
29	Will the site have an impact on light pollution levels?	Is it likely that the Council policy likely will require street lighting at this location? Are there proposals for floodlighting on the site?	No	
30	a) Will it the site affect the present green network of the area?	a) Will the site affect features that currently provide for the movement of species and/or people e.g. woodland, hedgerows, field margins, watercourses, coastlines, tree belts, greenspace?	No	

b) Will the site provide opportunities to enhance the present green network of the area? 31 Will the site provide opportunities for people to come into contact with and appreciate nature/natural environments? 32 a) Will the site affect any core paths or right of way? 33 b) Will the site affect any other existing paths or outdoor access opportunities? 34 b) Will the site affect any other existing paths or outdoor access opportunities? 35 c) Will the site affect any other existing paths or outdoor access opportunities? 36 c) Will the allocation provide new access opportunities within the site and linking to the path network beyond the site? 37 d) Will the site have an impact on the geodiversity of the area? 38 Will the site have an impact on the geodiversity of the area? 39 Will the site have an impact on the geodiversity of the area? 30 Will the site have an impact on the geodiversity value e.g. distinctive landforms, areas with natural processes, rock exposures for study? 30 Will the site have an impact on the geodiversity value e.g. distinctive landforms, areas with natural processes, rock exposures for study?		ı	T		
enhance the present green network of the area? 31 Will the site provide opportunities for people to come into contact with adaptericate nature/natural environments? 32 a) Will the site affect any or opportunities or acress opportunities? 33 Will the site affect any obtained nor outdoor access opportunities? 34 Will the site affect any offer access opportunities? 55 Will the allocation provide new access opportunities within the site and linking to the path network beyond the site? 35 Will the site affect any and the site and linking to the path network beyond the site? 36 Will the site affect any and the site and linking to the path network beyond the site? 37 Will the site have an impact on the geodiversity of the area? 38 Will the site have an impact on the geodiversity of the area? 39 Will the site have an impact on the geodiversity of the area? 30 Will the site have an impact on the geodiversity site? (or other site with geodiversity site?)		b) Will the site provide	b) Will connectively of natural features or		
green network of the area? If agmentation of habitats and open spaces be improved? Will species be enabled to move where at present there is an obstacle?
