	on an Ordnance Survey base)

If you wish to suggest a site that should <u>not</u> be built on, fill in this form					
REASONS WHY YOUR SITE	SHOULD BE SAFEGUARDED FROM BUI	LDING			
How do the public					
enjoy the space - e.g.	· ·				
used for dog walking,	*2	* 5			
children's play?					
What makes the site					
more special than other					
areas in the					
village/town?					
Does the site have					
attractive or rare					
features such as mature					
trees, historical					
significance or					
protected wildlife?					

Landowners, developers and/or agents wishing to suggest a site should fill in the following form <u>and</u> as much as possible of the strategic environmental assessment form (at the end of this document) which assesses the environmental effects of possible development sites.

If you wish to suggest	a site that should be built on, fill in this form
REASONS FOR	YOUR DEVELOPMENT SITE SUGGESTION
How can the site be serviced? (give details of proposed access, foul drainage, surface water and water supply arrangements)	
	FORM CONTINUES BELOW

REASONS FOR YO	OUR DEVELOPMEN	T SITE SUGGESTI	ON		
What are the site's constraints and how can they be resolved or reduced? (e.g. does the site flood, are there protected species present, will good farmland be lost, will the local landscape be affected, will valued trees be felled, are any other heritage features likely to be affected?)				*	F1 85
What benefits will result to the wider community from the site's development? (e.g. will there be more or better jobs, will the land be put to a more productive use, will the development increase infrastructure capacity for others, will more affordable houses result, is there an unmet demand for the development?)				***	
What impact will there be on travel patterns from the site's development? (e.g. will more or less people engage in active and healthy travel (walk / cycle) or go by public transport as a result of the site's development rather than travel by private car?)			49		
Is the site well connected? (e.g. will the average travel time to community and commercial facilities reduce or increase as a result of the site's development, is the proposed use compatible with existing / proposed surrounding uses?)				2.00	77
Is the site energy efficient? (e.g. will the site allow for energy efficient siting, layout, building design and local renewable energy source connection?)	81				
What other negative impacts will the development have and how will they be resolved or offset? (e.g. will the site's development increase any form of pollution or decrease public safety?)					

STRATEGIC ENVIRONMENTAL ASSESSMENT FORM

Landowners, developers and/or agents wishing to suggest a site should fill in as much as possible of the following form. Strategic environmental assessment of local development plan sites is now a statutory requirement and considers the possible environmental effects of development proposals. We will check your answers and fill in any gaps.

No	Issue	Detailed Explanation	Answer	Any Proposed Mitigation Measures (how will you reduce or offset the effects of your development?)
1	a) Will the site safeguard any existing open space within the area?b) Will the site enable high quality open space to be provided within the area?	Will the site have any impact on useable public open space (such as parks, playing fields etc) or any opportunities to create additional public open space?		
2	Will the site encourage and enable provision for active travel (walking, cycling and public transport use)?	Is any part of the site within 400m straight line distance of any community/commercial building? or will development provide a community/commercial building within walking distance of existing residential areas? - Are there opportunities to create new walking/cycling routes or improve existing routes?		
3	Does the site provide an opportunity for you to provide a financial contribution towards encouraging more sustainable travel patterns?	For example, can a subsidy to a local bus route be provided?	5	
4	Will the site involve "off site" road improvements that will contribute to road safety?	Is the site likely to improve the local road network such as junctions or crossings?		
5	Is there scope for road	Will development incorporate on-site traffic		

	safety measures as part	I Instruction I am I a	i	
		calming measures (e.g. speed bumps) or		
	of the development of	street lighting? Will it incorporate the

	will soil and drainage	Habitats, especially bializet bogs		報告
	issues be addressed?			
22	Is there a watercourse,	Will there be any culverting, diversion or		
44	loch or sea within or			
		channelling of existing watercourses?		
	adjacent to the site? If			
L	yes, how will the water			

104	environment be protected from			
	development?			
23	Will the site offer opportunities for sustainable waste management?	Will the waste produced by the site be minimised and processed close to source in a sustainable way?		* :
24	Can the site be connected to the public water and sewerage system?	Can the site be connected at reasonable cost? If not, what alternative is proposed?		E:
25	Will the site require alteration to the local landform?	Can the site (including access) be developed without significant re-contouring etc.? Will access tracks and parking areas have significant cut and fill?		
26	Will the site affect or be affected by coastal erosion or natural coastal processes?	This will be noted on any relevant shoreline management plan.		
27	Is the site sheltered from the prevailing wind and does it have a principal aspect between SW and SE?	Will development make best use of the site in terms of energy efficiency?		
28	Will the site have any impact upon local air quality?	Is the site near areas of employment or close to public transport? Such developments are less likely to result in additional traffic which may contribute to air pollution.	2)	
29	Will the site have an impact on light pollution levels?	Is it likely that the Council policy likely will require street lighting at this location? Are there proposals for floodlighting on the site?		2 12
30	a) Will it the site affect the present green network of the area?	a) Will the site affect features that currently provide for the movement of species and/or people e.g. woodland, hedgerows, field margins, watercourses, coastlines, tree belts, greenspace?		

	b) Will the site provide	b) Will connectively of natural features or		
ĺ	opportunities to	open space and paths used for public		
	enhance the present	amenity be improved? Will existing		
	green network of the	fragmentation of habitats and open spaces		
	area?	be improved? Will species be enabled to		
		move where at present there is an obstacle?		
31	Will the site provide	Is the site close to (within 1.5km) an		8
	opportunities for people	opportunity to come into contact with		
	to come into contact	nature/natural environments e.g. Local		<u>\$</u>
	with and appreciate	Nature Reserves, local greenspace, green		
	nature/natural	networks? Are there proposals which will	40	
	environments?	increase opportunities to come into contact	7/6	
		with nature/natural environments?		
32	a) Will the site affect any	a) Is a diversion of a core path or right of way		
	core paths or right of	required? Will there be any impact on the		
	way?	usability of a core path or right of way?		
	b) Will the site affect any	b) Will it affect an existing path in the		
	other existing paths or	Highland Path Record? Will it provide		
	outdoor access	additional access opportunities or adversely		
	opportunities?	affect access opportunities afforded by the		
		Land Reform (Scotland) Act 2003?		
		\$		
	c) Will the allocation	c) Will new paths be created within and		1994
1	provide new access	beyond the site? Will any existing paths be		in,
	opportunities within the	improved e.g. to increase accessibility to a		
	site and linking to the	wider range of users? Will the site help to		
	path network beyond	realise priorities identified in the Council's		
	the site?	outdoor access strategy or aspirational paths		
	8	identified in the core path plans?		
33	Will the site have an	Are you aware if the site lies within or		
	impact on the	adjacent to an un-notified Geological		
	geodiversity of the area?	Conservation Review site or Local		
		Geodiversity Site? (or other site with		•
		geodiversity value e.g. distinctive landforms,		
		areas with natural processes, rock exposures		
L		for study?)		8.

34	Will soil quality and capability of the site be adversely affected?	Will the site result in a loss of soil due to development or removal of good quality soil from the site? Is the site on land identified as Prime Quality Agricultural Land?		
35	Is the site on peatland?	Is the site within or functionally connected to an area of peatland? Would the allocation involve the disturbance of peat? If yes, how would impacts on peatland be avoided or minimised? Would any tree felling be required?		·
36	Will the site have any affect on the viability of a crofting unit?	Does the site represent a significant loss of good quality inbye crofting land or common grazing land?	2:
