Benchmarking

What is the Local Government Benchmarking Framework (LGBF)?

Local councils across Scotland are required to publish their performance information using the LGBF each year. This ensures that councils report standard information on the services councils provide to local communities across Scotland. The indicators within the LGBF were selected through a wide consultation process to cover the major service areas of local authorities. The performance between all **32 Scottish Local Authorities** is reported in quartiles.

For the LGBF indicators the Highland Council is in the top quartile (ranked 1-8) for 14 indicators and in the bottom quartile (ranked 25-32) for 13 indicators. It should be noted that there are a wide range of factors that influence these indicators including geography, service delivery models and budget priorities.
