**Subject:** LAND ADJOINING THE MS THERAPY CENTRE

Dear Tim

Please accept this as a formal submission for use of the adjacent ground to our centre.

The future development on the area marked on the plan would allow for small expansions of the existing building as and when finance becomes available. To date discussions have begun on the possibility of a sun lounge and the planting of a flower garden. Car parking is already at a premium and with a growing list of users this will need expansion in the near future. Storage of equipment and access for delivery vehicles is restricted and would also benefit from an expanded access around the parking area.

There would be no impact on the surrounding area as this property lies at the head of a dead end road which lies at the rear of an industrial unit, the roads leading to the Centre are also capable of accommodating the traffic and no impact would be noticed on any other industrial units in the area.

The MS Therapy Centre, after getting significant financial help from the Inverness Common Good Fund, has found its feet and is growing, not only in the number of MS sufferers that it is helping find a better quality of life but in the liaison arrangements it is developing with NHS Highland. This latter work will act to take pressure off health service providers and is recognised as improving the quality of life of a number of residents of the Burgh in the City.

Regards

Jackie McIntosh  
Centre Manager

FAO Tim Stott.

This is a draft note which will also be sent from the MS Centre asking for the land marked on the attached plan to be designated in the "Inner Moray Firth Development Plan" for future expansion of the MS Centre.

Cllr Fraser Parr.

The future development on the area marked on the plan would allow for small expansions of the existing building as and when finance became available. To date discussions have begun on the possibility of a sun lounge and the planting of a flower garden. Car parking is already at a premium and with a growing list of users this will need expansion in the near future.
