<p>Dornoch Sports Centre Following Committee decision in August 2016 to publish a Modified Proposed Plan we took this opportunity to make relevant updates to the Proposed Action Programme based on</p>		

comments received and progress made with various projects throughout Caithness and Sutherland. This included making the amendments which Sportscotland had requested. No further comments were made in relation to the matter at Modified Proposed Plan stage.

Coigach Assynt Living Landscape

The only submission received on the updated version of the Proposed Action Programme (published alongside the Modified Proposed Plan) was from the Coigach Assynt Living Landscape (CALL) project. They provided corrections and clarifications in respect of the details of the project which have been made to the Action Programme.

A supplementary comment about the Strategy Map has not been submitted as a representation on CaSPlan itself and therefore cannot be considered at this advanced stage of the plan process. However, this is unlikely to significantly affect the CALL project.

Additional Proposed Action Programme amendments

As outlined in Issue 15 'Growing Settlements – Caithness' comments were made at Modified Proposed Plan stage by Dunnet and Canisbay Community Council about reinstating a section of core path at John O Groats. At Caithness Committee on 14th February 2017 a Member queried whether reference to the proposal could be incorporated within the Plan. It was agreed that the most suitable place would be to include reference within the Aspirational List in the Proposed Action Programme.

In addition to the changes above, it may be noted that in response to comments made to the Plan we have also made the following changes to the Proposed Action Programme:

- HITRANS feasibility study of a sleeper service to Caithness
- Additional £5m added to the Strategic Timber Transport Fund (STTF) for transport improvements associated with timber haulage
- New leisure centre in Halkirk
- Far North Line Review Group set up to coordinate service improvements.
