Dear Sirs

Estimate No 1064

I am pleased to give you my estimated cost for the new beach car park toilet block as follows:-

1. Demolition of existing toilet block – strip out all fixtures & fittings, doors, roof etc and dispose of. Use as much of the block work as possible to form hard standing.
2. Connect 110 mm pipe to existing service. Connect 25 mm alkathene to existing service. Lay cable duct for electric supply from existing toilet. Shutter and lay reinforced concrete bases 3.1 x 7.1 x 0.15. Lay open grating drainage trench at bottom edge of car park. I have allowed a pc sum of £450 exc VAT for the supply of chemical disposal point.
3. I have allowed a pc sum of £2,000.00 exc VAT for disability ramps and steps.

All at a cost of £12,145.00 exc VAT (£14,574.00 inc VAT).

I look forward to hearing from you.

Yours faithfully

ff Murdo MacRae
