Tain Parish Hall 11-4.30, 5.30-20.00

The presentation today details four sites considered by the council for a 3-18 School Campus in Tain. The recommendation following the desktop study presented is to take two sites Tain Royal Academy and Craighill forward through detailed site investigation to consult the community on the two options through a formal statutory consultation.

If you would like to make comment on the proposal please use this sheet and the box provided or by email to clestates@highland.gov.uk . The deadline for comments is 5pm on Monday 14th May. All comments received may subsequently be published as part of reports to Council Committee.

Craighill please

- no-brainer - let's get on with it.

Thank you.

The Craighill site is the better option but the plan for the school is still too small, not enough car parking playspace and st Duthus part is too small from start. They need more than 4 class capacity.

The site at Craighill Primary School would be my preferred choice. Currently my children go to Craighill Gaelic primary and I find there to be a better chance for less education disrupted as the new school gets built and access is easier + less necessity for new roads etc....

Thank you for today, very helpful.
Keen for Craighill site. but definitely
need to ensure TRAFFIC is safe &
good access for walking would not
impact negatively to Health
Centre, / Innis Mhor.

Thank You.

Subject: Campus preference

Hi

As a parent of a daughter in P7, with the prospect of her going to school which in such a state of disrepair, and a bad reputation is a bit worrying.
So the sooner this new campus is up and running the better it would be for everyone.
My obvious preference would be the Craighill school site due it it already being owned by the council and it's close proximity to the A9. The other 3 would not be an option in my opinion.
The current academy site is in the centre of town, and the amount of kids, buses, cars that would be expected would be chaos. Kirksheaf is also out of the way and the site would need to be purchased. My initially preference was the Asda site until I found out in would need to purchased first.
Due to the now lack of funds available, the cheapest (owned by the council) and most accessible location would be the Craighill site.

Hello, I would like to put my comments in re the above proposed school. My preferred site would be the Craighill one. Under no circumstances would the existing TRA site be suitable.

Thank you.

Regards

After tonight's meeting I vote for the Craighill site.
Why this was not offered last year beats me, waisting time and money when common sense told you the academy site was totally unsuitable.

I would like to put forward my opinion on the above. I feel strongly that the craighill site would be the most appropriate for the campus. Firstly, the current tra site was strongly opposed - I do not see what could have changed for this site to now become suitable? The craighill site has room for future expansion should that be a necessary option. The field next to the school i believe, is owned by the housing department of the H.C and the education department would need to purchase this land from them. I propose that the departments swapped - the old tra site for the the space next to craighill. Also, should there be need for emergency medical assistance, craighill is in very close proximity of the health centre. There is extra parking in the Mansfield estate for pick up and drop off for parents and guardians who are driving. I appreciate your time to read my email.

Many thanks, [REDACTED]

I am more than happy for the Craighill site to be the only one presented to the Council Committee for approval for statutory consultation. I

see no benefit in continuing to include TRA site as a viable option and I will be contacting members on the Care, Learning + Housing Committee to tell them this.
