[REDACTED]

As you may know, Gairloch Community Council has a proposal for the upgrade of toilet facilities / enhanced visitor amenities based in the Golf Club car park. This involves installing a clean modern toilet block with showers etc Also provision of charging /service points for Camper Vans. To get this up and running we have submitted an application for a Community Asset Transfer to Highland Council.

While they are agreeable to this, they have said they need some more detail e.g. proof that interested parties such as the Golf Club approve and support this, along with other bodies like the Church and indeed the citizens of Gairloch.

I would be happy to call in on you and discuss this, and can give you as much detail as to where we are with this - we basically require a Letter of Support. (Attached is a draft LoS - see if this format is ok with you?)

Let me know if this finds favour and I will meet you. We are looking to inform the Asset Transfer people ASAP as I believe there is an early deadline for the re-submission,

Best regards,

Kenny Thomson
Chair
Gairloch CC
