

Mr Ross Balfour
Chairman
Seaboard Community Polytunnel Group

12th November 2018

Dear Ross

**LETTER OF SUPPORT RE THE COMMUNITY ASSET TRANSFER – 30 YEAR LEASE
SEABOARD COMMUNITU POLYTUNNEL GROUP PROJECT**

We are aware that your group have lodged a Community Asset Transfer request for an area of ground situated on the drying green at Balintore Harbour.

There is no doubt that there is a need in the Seaboard Community for such a project and that it would help to address various social needs such as isolation and loneliness. It is very encouraging that the project has received substantial support to date and also local support from skilled people who are willing to be involved in the project.

As a Community Council we are in full support of the above project.

We wish you every success and appreciate the work and effort that has already gone into this project.

Yours sincerely

Sandra Skinner (Mrs)
Chairman

Mr Ross Balfour,
Chairman
Seaboard Community Polytunnel Group

Dear Ross,

**LETTER OF SUPPORT RE THE COMMUNITY ASSET TRANSFER – 30 YEAR LEASE
SEABOARD COMMUNITY POLYTUNNEL GROUP PROJECT**

I am aware that your group have lodged a Community Asset Transfer request for an area of ground situated on the drying green at Balintore Harbour.

There is no doubt that there is a need in the Seaboard community for such a project, this would not only get people engaged in growing their own fruit and vegetables but in the process address other social needs such as isolation and loneliness. It is very encouraging that the project has received substantial support to date and also local support from skilled people who are willing to be involved in the project.

As a director of the Seaboard Memorial Hall Ltd and Seaboard Trading Ltd we would lend our support to this project by purchasing and using some of the fruit and vegetables grown in our Café and hopefully be able to boast on our Café Menu '*From Tunnel to Table*'.

We wish you every success and appreciate the work and effort that has already gone into this project and what is to come.

Yours sincerely,

Maureen R Ross.

With regard to the Community Asset Transfer I am very happy to, and my support as there is no question that the odyssey project will have a major impact on social isolation, mental health and physical wellbeing for the community. Helen, is there something I need to complete to support this?

Thanks
Marta
