

THE MAJESTIC LINE

WEST COAST CRUISES

To Whom It May Concern

January 29th, 2019

The Majestic Line as a company would like to support the application for a pontoon to be installed at Raasay Harbour.

We will have four vessels in our fleet this year and our cruises visit many different areas of the west coast of Scotland and the isles of the Hebrides. We have just announced a new cruising area to the remote North West Coast Mainland and the Western Outer Hebrides aboard our new ship Glen Shiel.

We endeavour to get our guests ashore at all the places we visit, and the Isle of Raasay has been a very popular destination, but we are constrained by the anchorage and being able to safely land guests. The addition of a pontoon would greatly improve this and allow our guests to further explore the historic and tranquil Isle of Raasay.

Yours faithfully

Neil L Stewart
