Dear James,

**St Fergus Bowling Club – Proposed Asset Transfer**

I write on behalf of the Royal Burgh of Wick Community Council to wholeheartedly support your application for an asset transfer from Highland Council of a vacant garage area adjacent to your clubhouse to enable you to construct an indoor bowling facility.

Bowling both indoor and outdoor is a popular activity in Wick but the vagaries of weather affect the outdoor game and the availability of venues affect the indoor game. This proposed dedicated indoor facility would be ideal for dealing with both these problems. We believe the proposal would be a major boost to sporting/recreation facilities in the town and we would urge you to open the facilities up to visitors which would help address the current lack of wet weather activities in the area. We would also hope that you would be able to work with local schools to encourage youngsters to take up the sport.

We wish you every success with this exciting venture.

Yours sincerely

John Bogle

**Secretary, Royal Burgh of Wick Community Council**
