

**THE HIGHLAND COUNCIL  
TRAFFIC CALMING ON U4120 MACKAY ROAD, INVERNESS**

**Statement of Reasons**

In the interests of road safety and specifically to improve the route to school for the pupils of Cauldeen Primary School and local pedestrians it is proposed to create 2 raised table crossing points on the U4120 Mackay road, namely on the school access side road and the garage access side road entrances to the Primary School. These raised tables will provide an uncontrolled crossing point for pedestrians over both side roads. It is also proposed to install two sets of speed cushions on the main U4120 Mackay Road either side of the school and garage access side roads to reduce vehicle speeds over the area vulnerable road users will be accessing the school.
