#### **Appendix 2 - Baseline Data Information and Maps**

The information and maps in this section represent baseline data which has been taken at a Highland wide level. More localised information will be included in the Environmental Report. Date of data noted where known, otherwise should be taken as September January 2012.

Maps Contained in this Section are:

- European Bathing Beaches
- Cairngorms National Park
- Core Path Network
- Highland Cycle Network
- Population Change by Ward 1999-2009
- Most Deprived Areas in Highland
- Highland Flood Risk
- Highland Forest and Woodland Strategy
- Hydro Electric Power in Highland
- Highland Council Libraries
- Listed Buildings
- Local Nature Reserves
- National Nature Reserves
- National Scenic Areas
- Ramsar Sites
- Special Areas of Conservation
- Special Protection Areas
- Sites of Special Scientific Interest
- Sewage Treatment
- Settlement Hierarchy
- Waste Facilities Existing & Proposed
- Waste Water Drainage Consultation Areas
- Waste Management Facilities 2009 (SEPA)
- Special Landscape Areas
- Wild Land

SEA Indicator	Key Information	Data Source
Scoped In Population and Human Health	Incidence of Coronary Heart Disease in Highland is 304 cases per 100,000 (Scotland – 306) for year ending 31 Dec 2006. 1997 figure was 396.	www.isdscotland.org
	Highland wide in 2006 22 pedestrians and 5 cyclists were killed or serious injured in road accidents. 1994-98 yearly averages are 38 pedestrian and 16 cyclist fatalities.	www.scotland.gov.uk
	82 non-domestic noise complaints received by Highland Council in 2006/7.	www.audit-scotland.gov.uk
	Scottish Crime and Victimisation Survey 2006 suggests 56% of respondents thought crime to be a 'big' problem (93% considered a problem overall). Feelings of safety while walking alone after dark is often used as a proxy measure for fear of crime. Overall, just over 3 in 10 respondents (32%) reported that they felt unsafe while walking alone after dark (which was the same as the proportion that reported feeling unsafe in the 2003 survey). Just over one in 10 (12%) reported that they felt 'very unsafe'. No regional data.	www.scotland.gov.uk
	11 health-related walking groups operating in PPS area.	www.stepituphighland.org.uk
	50% of Highland population walked a least on one day in the past week with the main aim been as a mode of transport (Scotland 53%). 64% walked at least one day in the past week just for pleasure or to keep fit (Scotland 46%).	SHS Transport Across Scotland 2005-2006
	208, 914 people living in Highland.	Census 2001 http://195.173.143.171/plintra/iandr/cen/prof_hi gh.htm

	<ul> <li>Highlands population is projected to increase by 3.6% by 2024. There is expected to be 16, 029 more people of retirement age and 5507 fewer children than in 2004. therefore the population is expected to age.</li> <li>3 data zones in highland Region fall within the 5% most deprived zones in Scotland. 2 data zones fall within the top 5% least deprived.</li> <li>A large proportion of Highland</li> </ul>	Highland Council population Projections 2004- 2024 http://www.highland.gov.uk/NR/rdonlyres/20D8 6A3A-5750-42B3-927D- 21000CD24694/0/bn8popproj.pdf The Scottish index of multiple Deprivation 2004 http://www.highland.gov.uk/NR/rdonlyres/796E A9D0-C754-4A2D-9799- DBB026E6A611/0/simd2004_paper.pdf Highland Council Definition of Fragile Rural
	Region is referred to as "Fragile" in terms of remoteness and scarcity of population. An average of 8 people live per sq km, throughout the region, reducing to 2 people per sq km in some parts.	areas in Highland. <u>http://www.highland.gov.uk/NR/rdonlyres/267D</u> <u>CD97-B9B0-4BF3-BE1C-</u> <u>15D662186C48/0/fragile_paper.pdf</u>
	45% of Highland households are within 3mins. walking distance of a bus stop (Scotland 55%) but with 20% having frequency of services of less than 1 bus per hour (Scotland 4%). 12% of the population in Highland had used a train in the past month (Scotland 19%). SHS Transport Across Scotland 2005 – 2006.	SHS Transport Across Scotland 2005 - 2006

National Scenic Areas	3 National Scenic Areas found in Inner Moray Firth Area	Special Qualities of NSAs Report www.snh.org.uk
Wild Land	Areas of Wild Land	www.snh.gov.uk/protecting-scotland- nature/looking-after-landscapes/landscape- policyand-guidance/wild-land/mapping
Coast	Biodiversity	Highland Biodiversity Action Plan www.highland.gov.uk
	Number, type and specification of harbours in Highland.	http://www.highland.gov.uk/yourenvironment/ro adsandtransport/harbours/
	Coastal Classification	THC Coastal Development Strategy www.highland.gov.uk
Impact of Built development	Visual impact of build development	SNH's visual indicator of built development and land use change – <u>http://www.snh.gov.uk/publications-data-and-</u> <u>research/trends/scotlands-indicators/natural-</u> <u>heritage-indicators</u>
Special Landscape Areas	There are 6 SLAs within or adjacent to the Plan area.	SLA Citations www.highland.gov.uk/developmentplans
Biodiversity, Flora and Fauna	Key information	Data Source
Protect, enhance and where necessary restore designated wildlife sites and protected species	There are currently 12 RAMSAR sites, 90 SAC's, 46 SPA's, 368 SSSI's, 12 NNR's, 1 LNR in Highland	www.snh.org.uk
	The Cairngorms National Park extends into Badenoch and Strathspey which is within the Highland Council area and shares a boundary with the plan	www.cairngorms.co.uk

	area	
Improve biodiversity, avoiding irreversible losses.	Highland region supports 192 of the 238 priority species in Scotland and 40 of the 42 priority habitats. 455 of the priority species of conservation importance are found in Highland.	Highland Biodiversity Action Plan www.highlandbiodiversity.com Habitat and Birds Directive – Annex 1
Provide appropriate opportunities for people to come into contact with and appreciate wild life and wild places.	Proportion of population living within 200m of a footpath. The core paths plan is yet to be completed but this information will be added to the baseline data when the plans are adopted, Summer 2008.	The Highland Councils Core path plan.
	Site condition monitoring database being produced by SNH will provide information on the condition of designated sites, 2000-2005, including recreational pressures but this database is not yet operational to provide this data.	SNH
