

NOTICE OF UNACCOMPANIED SITE INSPECTIONS FOR THE WEST HIGHLAND AND ISLANDS LOCAL PLAN EXAMINATION

This is to give notice that the Appointed Reporters undertaking the Examination for The West Highland & Islands Local Plan will be carrying out unaccompanied site inspections within the local plan area as indicated below:

Mr Iain Lumsden will be carrying out site inspections in the Lochaber area from the middle of August 2009.

Mr David Russell will be carrying out site inspections in the Fort William area from the end of August 2009.

Mr Douglas Hope will be carrying out site inspections in the Skye & Lochalsh area from the end of September through to the start of October 2009.

The purpose of the unaccompanied site inspections is to acquaint the Reporter with the location and surroundings of those sites which are the subject of unresolved representations, and to allow him to note any relevant features which have been referred to in the submissions. Neither those who submitted the representations, nor representatives of the council, have been invited to accompany the Reporter. In the event that a Reporter requires to undertake a further site inspection on an accompanied basis, or to seek further information, the relevant parties will be informed of the arrangements in writing.
