

## **Dornoch Experimental Traffic Regulation Order 2025**

### **Briefing Note 11<sup>th</sup> November 2024**

*Shane Manning  
Principal Traffic Officer  
Parking Services, The Highland Council*

Following discussions with representatives of the Dornoch Community the Highland Council have been asked to promote an experimental Traffic Regulation Order which will run for 18 months to assess the benefits of formalised traffic management in the centre of Dornoch and around the Beach Access Road.

The exact details of these restrictions are attached and will cover Waiting Restrictions (Single and Double yellow Lines) in specific locations where issues have been identified.

There will be formalised waiting restrictions around Dornoch Square limiting parking to a maximum of 2-hour maximum stay between 10am and 4pm from 1<sup>st</sup> of May to 30<sup>th</sup> Sept in designated bays.

The start of these new restrictions will be advertised in due course leading to signing and lining works taking place to create the traffic management scheme.

Feel Free to share these proposals

We welcome any questions you may have and they can be directed to the Parking team via email [parking@highland.gov.uk](mailto:parking@highland.gov.uk)
