Application Type

Domestic Existing Building

Grid Reference

184348 891118

Description of Works

The sill of a first floor dormer window will be lowered to improve external views. The works require removal of timber infill rafters and studs below the dormer window. The infill rafters and studs which will be removed do not form part of the primary load bearing structure. The insulation will be improved throughout the loft as part of the works. There is no change in internal floor area. There is no change in provisions for fire resistance.

Description of Works Erection of extension to dwelling - AMENDEMENT - The original revision of drawing 001 had an error in that it noted a Robeslee lintel being needed to support blockwork above. This was incorrect, as :i) There is no blockwork above ii) Drawing 002 showed a steel 152UC section plus timber required at first-floor level, which was installed. Revision 1 of drawing 001 corrects this error and is submitted as part of this amendment application. Also, the canopy was not erected. It has therefore been removed from the drawing
