The Highland Councils Election Team is working with those aged over 14 across the highlands and aim at developing their understanding of democracy, voting, and increasing their interest

---

## We Have a Website

We have now created a place for young people to go online to find out all information regarding elections. We understand that trawling through lots of information can be difficult for young people, so we have now created a webpage that has all the usual information but in bitesize and easy to read chunks. We have our “Guide to Elections” PowerPoint available for download which has wonderful commentary by our modern apprentice Kyle Manson. A timetable of where we will be visiting on our tour can also be found here

---

## Our Youth Participation Programme

2022 was a year dominated by the local government election on the 5<sup>th</sup> May, now we have had time to reflect on our plan for young people. We strive as a local authority to get as many young people on the electoral register. We have created many resources for our young people to get as much information on voting as possible. In early 2023 we will be going round schools in the highlands delivering our guide for elections PowerPoint in school assemblies. We aim to interact with as many young people as we possibly can.

## **Your View Matters**

We want to hear from you so you can shape our Programme. Fill out our survey which will enable us to focus on the issues that matter to you. Please see the QR code to the right, this will bring you straight to our survey, we ask that it is completed by the 27th March 2023
