

Name of consultation: Kinlochewe Primary School

Your comments: I would suggest that as Achnasheen is nearer to Strathgarve Primary than Gairloch Primary, then the catchment area should be split in two with Achnasheen going to Strathgarve and Kinlochewe going to Gairloch. This would mean no school transport has to try and get up and down Glen Docharty safely in the winter months and children in Achnasheen will have less travel to/from school.
