Settlement Assessment

Quantity

While there is overall sufficient open space in Beaully, there is a lack of certain types of open spaces namely provision for children and teenagers and other functional greenspaces such as allotments. When new developments come forward in Beaully it will be important to try and secure these types of open spaces. In addition the outdoor sports facilities at the School provide much of the open space in Beaully, however this is only accessible outwith school hours.

Accessibility

As there is a deficiency in a number of types of open space therefore there is no access to these open spaces in the settlement. Of the types of open space which are available, the majority of the open spaces can be accessed easily. However with this said there is a lack of opportunities to access amenity green spaces in the centre and in the north western areas of Beaully.
