Settlement Assessment

Quantity

There is a good mix of open spaces within the settlement however there is not a sufficient quantity to meet with the provision standard of 40m² per person. Like many of the settlements in Highland the majority of the open space provision is provided by outdoor sports facilities. It is important to note that there are very good linkages to the wider countryside which provide access for informal recreation.

Accessibility

While the majority of the settlement has some access to open space, there are areas with limited access due to the way the village sites within Broadford Bay. While this does on paper seem to limit accessibility to open space, as mentioned above there are good recreational links to the wider countryside providing opportunities for informal recreation.
