**Settlement Assessment**

**Quantity**

There is a significant supply of fit for purpose open space in Dornoch, offering most types of open space. However there is a lack of provision for children and teenagers and other functional greenspace in the form of allotments. Although not identified as part of the audit there is significant amenity greenspace in the form of Dornoch Beach and while not being identified due to it being private ground, the golf course has much amenity value.

**Accessibility**

The majority of the settlement can access a range of different types of open space within comfortable walking distance. The only provision where this does not appear to be the case is with provision for children and teenagers. There is opportunity to make the sites connect better by identifying a green network in and around Dornoch.
