Settlement Assessment

Quantity

Due to its setting within the glen the open space provision in Drumnadrochit is complimented by the surrounding natural/semi-natural open spaces. There is also significant provision of outdoor sports facilities, however there is a shortfall in provision for other functional greenspaces. This shortfall could potentially be addressed through appropriately designed new open spaces in future developments in the area.

Accessibility

Of the types of open space present in Drumnadrochit the majority are readily accessible in the north of the settlement, however towards the south there is generally less open space and therefore it is only the outdoor sports facilities which can, in theory, be accessed by the whole village.
