Settlement Assessment

Quantity

In Fortrose, the open space provision is largely provided by the outdoor sports facilities at Fortrose Academy and the leisure centre. There is a deficiency in provision for children and teenagers and elements of other functional greenspace such as allotments.

Accessibility

The south eastern area of Fortrose has good access to all types of open spaces available in the settlement however toward the north westerly area of Fortrose there is poorer accessibility to open space especially amenity green space. It is important to ensure that linkages exist between the existing open spaces through active travel linkages especially to the strategic open spaces such as that located at the leisure centre.
