Settlement Assessment

Quantity

Assessed against the provision standard there is sufficient open space in Ullapool. On the ground this provision is mixed between a range of open space types with a spread across the settlement. North of the Ullapool River is where the majority of the provision lies and there is also a concentration of provision at the entrance to the settlement from the south.

Accessibility

Due to the compact nature of the settlement there is potential for residents to access a range of different open spaces using active travel. Due to the position of the river crossing there is limited access to some of the open spaces north of the river from the centre of the town.
