

New Beauly Primary School

A drop-in public consultation event has been arranged at The Phipps Hall, Beauly on Wednesday 14 May 2025 between 2 pm and 7 pm.

The Council has approved capital funding for a replacement school building in Beauly to be completed by 2028.

Several potential site locations are being considered for the new building, along with the current primary school site.

All new school buildings will be designed as Community Points of Delivery (PODs) capable of including community facilities, Council services or other partners as required. The future use of any buildings or sites that may be vacated as a result would be carefully considered as part of this process.

This event will offer an opportunity to view and comment on the proposals and will be open to all members of the community.

Information is also available at:

PLEASE NOTE: No application has been submitted to The Highland Council in relation to this proposal. Any comments made to the prospective applicant at this time are not representations to the council and would not be considered as part of any future application. If the prospective applicant subsequently submits a formal application for planning permission, there will be an opportunity to make representations on that application to the Council.
