3 Delivery Programme Contents	4
4 Developer Contribution Rates	5

1 Background and Purpose

The Delivery Programme sets out the infrastructure and other investment required to support the implementation of the Highland Council's local development plans. Currently, it is split into three colour coded sections for each of our existing area local development plan areas, i.e., Inner Moray Firth (IMF), Caithness and Sutherland (CAS) and West Highland and Islands (WEST).

However, when the forthcoming, single Highland Local Development Plan has reached "Proposed Plan" stage (scheduled for late 2026) we will produce and publish a single Delivery Programme for that Plan. It will become a spatial expression of the Council's Capital Programme (including the Highland Investment Plan), the capital programmes of other public infrastructure agencies, and where developers will be asked to contribute to that investment. We are also considering the use of Masterplan Consent Areas as a tool for delivery within Highland. Further details of this matter are available online (1).

The purpose of a Delivery Programme is to provide information for identifying, monitoring and implementing the actions for delivering future growth in an area. It is used to help identify which infrastructure projects will require developer contributions and as a tool for coordinating investment. However, developers should be aware that it is a "point-in-time" document, and that financial and in-kind contributions will be subject to change. For example, education and transport contributions may vary during the consideration of an application proposal. We will update the Programme more frequently than previously to reflect significant changes in capital programmes and new development pressures. Developer contributions towards the delivery of the infrastructure projects listed in the Delivery Programme may be required from sites located within and outwith the listed settlements. For secondary school and community facility projects, developer contributions are usually sought on a secondary school catchment area basis. Therefore, users of this document should check the relevant Main Settlement(s) to identify developer contribution requirements.

3 Delivery Programme Contents

The Delivery Programme is split into the following sections:

- Strategic Infrastructure sets out the major investments which will support regional and national growth.
- 2. **Strategic Employment Sites** lists development plan defined Economic Development Areas and other strategic employment generating development such as those connected with the Inverness and Cromarty Firth Green Freeport Project.
- 3. **Main Settlements** outlines the actions for delivering growth in each of the plan defined Main Settlements. Housing Land Audit (5) (HLA) information is given for each Main Settlement. This predicts how many houses are expected to be built in that settlement during the HLA period. It is currently based upon the 2024 HLA that has a base date of 1 April 2024. This information will be updated annually.
- 4. **Other Areas** sets out the actions for delivering growth in areas outwith the Main Settlements.

⁵ https://www.highland.gov.uk/info/205/planning_-_policies_advice_and_service_levels/556/housing_land_information

An explanation of a number of terms and exceptions to developer contribution rates set out in the Delivery Programme is provided below.

Forward funded school expansions – increased capacity at a number of primary and secondary schools has been forward funded by the Council to address known issues. These are identified in the Delivery Programme and in most cases a cost per home specified. This cost is based on the relevant proportion of the total cost of the project attributable to the impact of new housing development. These costs will be index linked from the completion date of each expansion project.

Future school expansions/new schools – the School Roll Forecasts (SRFs) identify that a number of existing primary and secondary schools are likely to require increased capacity or that a new school will be needed to accommodate additional pupils. These are identified in the Delivery Programme. Where the cost is known it is specified, where the cost is not yet known "TBC" has entered against the "contributions required" cell. Future expansion projects vary in design stage, and therefore known costings have not been provided at this stage. A cost per home will be entered when this information becomes available and can be sought as part of any pre-application advice request to the Council.

Indicative school costs were included in the Developer Contributions Report agreed by the Council's Economy and Infrastructure Committee in May 2023. This report provided updated developer contribution rates for schools using the Learning Estate Investment Programme Metrics 2021. These were prepared to better reflect tender costs for school building in Highland. Further details are available in the Developer Contributions Report and Learning Estate Investment Programme Metrics, Terms and Conditions and Funding Outcomes.

Standard Rates for Community Facility Requirements - these rates were increased in line with the BCIS index to £1,568 per home, as set out in the 4 May 2023 Developer Contributions Report to the Council's Economy and Infrastructure Committee.

⁶ https://www.highland.gov.uk/download/meetings/id/81487/item_16_developer_contributions

⁷ https://www.scottishfuturestrust.org.uk/storage/uploads/leipmetricstermsandconditionsfundingoutcomes.pdf

4 Developer Contribution Rates

Applications that include one or two bed homes - one bed homes are exempt from education contributions; two bed flats or homes are subject to a reduced rate based on relative pupil product ratios of two bed homes versus three bed or more homes (subject to review as new evidence becomes available). Further details of potential reductions and exemptions are set out in <u>Developer Contributions Supplementary Guidance</u> (8) (DCSG).

Applications for 10 or more homes – planning applications on allocated sites or windfall sites for 10 or more homes will be assessed by re-running the SRFs to take account of the proposed development, existing SRFs commitments and any significant housing permissions/minded to grant decisions post the SRFs' publication. Any re-run may result in different contribution rates being sought than those specified in the Delivery Programme.

Extant Legal Agreements - the education and other developer contribution rates payable may differ from those stated in this document if an extant legal agreement affects the proposed development site. For example, different rates may have already been set within a legal agreement associated with a previous but still extant planning permission in principle.

Index Linking – most developer contributions amounts will be index linked from the base date when they were calculated to the time of payment. The Building Cost Information Service (BCIS) All-in-Tender Price Index should be used for the purposes of index linking costs. Base dates vary, a broad guide is provided below.

- Standard Rates for Community Facilities Q1 2023
- Schools for forward funded expansions last full quarter before the completion date of the expansion project; future expansions/new schools - variable dependent on stage of project.
- Transport sustainable transport intervention priorities Q1 2024.
- Other where another document is referred to, for example a development brief or supplementary guidance, then the base date specified in the relevant document should used for the purposes of index linking payments.

⁸ https://www.highland.gov.uk/directory_record/712087/developer_contributions

Colour Coding – each type of infrastructure or other requirement is colour coded as follows: **Community Facilities Transport Schools Water and Waste** Health **Planning Policy Development**

		1) STRATEGIC INFRAST	RUCTURE IMPROVEMENT	TS		
	ACTIONS	TIMESCALES	COST and FUNDING		DELIVERY	Latest Undate
Туре	Action	THVIESCALES	COST and FONDING	Delivery Partners	Status	Latest Update
	A9 Dualling Perth to Inverness Phased upgrading of road from single to dual carriageway	Phased programme of schemes up to the end of 2035.	£3.7 Billion (2023 prices)	Transport Scotland	A new Delivery Plan for the A9 was announced in Parliament in December 2023. The Tomatin to Moy 9.6km £184.7M section contract was awarded in July 2024 and the section to be open by the end of 2027. The remaining sections within Highland are expected to be dualled between 2033 and 2035. Full details via https://www.transport.gov.scot/projects/a9-dualling-perth-to-inverness/programme-details/#75915	Jul-24
	A96 Dualling Inverness to Aberdeen Phased improvements to the existing A96 including Nairn Bypass	Previously stated as a phased programme over period to 2030.	£3 Billion	Transport Scotland	Orders for the A96 Dualling Inverness to Nairn (including Nairn Bypass) scheme made and came into force on 12 March 2024. General Vesting Declaration March 2025. Land acquisition negotations progressing. Full details of the Orders via https://www.transport.gov.scot/publication/made-road-orders-and-compulsory-purchase-order-a96-inverness-to-nairn-including-nairn-bypass/ The wider scheme outwith Highland is subject to a review by Scottish Government.	Apr-25
	Aberdeen to Inverness Rail Improvements Project Enhanced commuter services into each city	Phased programme	£330m Aberdeen - Inverness Rail Improvements Project. £42m Inverness Airport Station	Transport Scotland, Network Rail, Rail Operators, HiTrans, THC	The new Inverness Airport station opened in February 2023	Jul-24
·RТ	Inverness to Perth Highland Mainline Rail Improvements Project Upgrading the Highland Line between Perth and Inverness viaadding passing loops, increasing line speeds, electrification and/or new(er) rolling stock. Particular aim to increase freight use of line and to decarbonise travel.	Ongoing programme aiming to deliver 2 hours 45 minutes journey time to Central Belt	TBC	Transport Scotland, Network Rail, Rail Operators	No funding commitment in Scotland Government Programme for Government ("Equality, Opportunity, Community") April 2023 which covers the period up to May 2026. Feasibility work ongoing.	Mar-24
TRANSPORT	Inverness West Link Connection between southern distributer road and the A82. Stage 1 is connection between Dores Roundabout and A82, Stage 2 involves additional crossing of canal.	Phased programme up to 2021	£43.352M	THC, Developers, Landowners	Stage 1 complete and opened to the public in Dec 2017, Stage 2 complete and opened to the public in May 2021. Mobility Hub implemented at Torvean in 2024.	Mar-24
	Inshes Junction, addition of southbound lane on A9 between	A9/A96 Inshes to Smithton: Orders made in 2024 but firm construction timetable TBC. Inshes corridor: Additional overbridge lane completed September 2018. THC Capital Programme commitment of £9.9M for road orders and construction works over period 2024-2029.	Total: £41.5M A9/A96 Inshes to Smithton: £25-35M (at 2015 prices excl VAT) Inshes Corridor: £9.9M	Transport Scotland; THC, Developers, Landowners.	A9/A96 Inshes to Smithton Scheme: Road Orders made in May 2024 and came into force in June 2024. General Vesting Declaration progressed and land acquisition negotiations underway in 2025. Construction funding and timescale still to be confirmed. Inshes Corridor Scheme given THC Capital Programme commitment of £9.9M for period 2024-2029 at meeting of June 2024.	Apr-25
	A9/A82 Longman Junction Improvement Scheme Grade separation of the A9/A82 at Longman Roundabout	Detailed development and assessment of the preferred option for the A9/A82 Longman Junction scheme continues and will culminate in the publication of draft Orders and an Environmental Impact Assessment Report. Delivery of the proposed scheme can only commence if approved under the relevant statutory procedures and thereafter a timetable for delivery can be determined.	£85-95M (DMRB Stage 2 options assessment cost estimate at Q3 2018 prices excl VAT.	Transport Scotland, THC	Initial options presented to public in May 2018. Preferred option identified and presented at exhibitions in June 2019. DMRB Stage 3 assessment process ongoing. Draft Orders and an Environmental Impact Assessment Report are the next stage. THC have submitted formal Change Request for the City-Region Deal with proposed changes relating to the Longman scheme and Corran Ferry. Outcome of Change Request yet to be confirmed.	Jul-24
	A9 North Kessock to Tore - Improvements identified within Transport Scotland's A9 Tore to North Kessock Study	Initial development at Tore roundabout ongoing. Timescale for these, and other options in the corridor are TBC.	To be confirmed	Transport Scotland, Developers, THC (possibly)	A number of potential options were identified for Tore roundabout and Munlochy (B9161) junction within the North Kessock to Tore corridor. Design work for signalisation/active travel improvements at Tore are ongoing (subject to successful resolution of objections to speed limit proposal). Any signficant improvements at Munlochy junction (roundabout, grade separation) would require developer funding as these are likely to be outwith the scope of exsting casualty reduction budgets.	Jul-24
	Enhanced High Voltage Electricity Network Delivery of an enhanced high voltage electricity transmission grid to meet national targets for electricity generation, climate change targets and security of energy supplies	2024-2030+	£20B	OFGEM, SSEN Transmission, Other Transmission Network Owners and Operators	New overhead lines, substations and subsea links. Full details of SSEN Transmission projects via https://www.ssen-transmission.co.uk/projects/2030-projects/	Mar-24
	Next Generation and Superfast Broadband Delivery of improved digital connectivity	The North Lot Contract for the R100 Broadband Scheme is expected to be complete by March 2028.	Next Generation: £146M (across whole of HIE area) Superfast: TBC	Scot Gov, HIE, BT, Other Public Sector Bodies	Roll out of "superfast" (minimum 30Mb/s speed) has reached 86% of premises in Highland s and Islands. In terms of fibre to the premises (1Gb/s capable speeds), as of November 2023, within the R100 North Lot Area (approximately comprising Highland plus Argyll and Bute, Aberdeen City & Shire, Angus, Stirling, Dundee and the Islands councils areas) 14,712 premises had been connected. A further 60,764 premises were contracted for future delivery.	Mar-24

TIES	Local Access to Full Fibre Network Partnership bid to the UK Government's Local Full Fibre Network (LFFN) programme for £4.7m funding to provide full fibre networks in Inverness Fort William Wick and Thurso.	2018-2022	£7.7M plus £24.5M private finance	UK Government, THC, NHS Highland ,	Provision of 1Gb/s speeds to schools and other public sector sites (152 in total) . Project completed in March 2022. Cityfibre also committed £24.5M of private investment to expand the Inverness full fibre network as a commercial service.	Mar-22
III D	Upgrading Water Quality Glenconvinth Water Treatment Works – capital maintenance undertaken at service reservoirs to ensure continued high water quality and security of supply	TBC	ТВС	Scottish Water	No published progress to date.	Mar-24
	Additional Water Storage Capacity Assynt Supply System – tripling of storage capacity to reduce risk of service disruption	TBC	TBC	Scottish Water	No published progress to date.	Mar-24
	Strategic Water Supply Capacity Augmentation of Inverness and A96 Corridor water supply. New Loch Ness Regional Water Treatment Works to serve Invermoriston and Fort Augustus	Ongoing	TBC	Scottish Water	Augmentation of Loch Ashie Water Treatment Works via pumped water from Loch Ness investigated in 2019 but no scheme progressed to date. Scheme at Invermoriston completed in 2023.	Mar-24
	Strategic Waste Water Treatment Capacity New, high capacity waste water treatment works at Ardersier to serve wider catchment	2017-2041	£5M for first phase works	Scottish Water	New underground pipeline from new developments at Tornagrain, Inverness Airport and Castle Stuart completed in 2017. Existing Ardersier sewage works upgrade completed 2017. New/expanded sewage works completed between 2019 and 2022.	Mar-24
OTHER	New Highland Prison 200 inmate capacity	2019-2026	£209M		Under construction. Expected to be operational by end of 2026. Will double present capacity of existing Porterfield, Invernesss prison.	Apr-25

2) STRATEGIC EMPLOYMENT SITES

SITE		COST and		DELIVERY
LDP Site Referenceof development	TIMESCALES	FUNDING	Delivery Partners	Update & Actions
IA01 Inverness Airport Business Park (IABP) Area - 199.4 ha allocated for Business, Industry, warehousing and uses complementary to airport.	Ongoing	Not known	Inverness Airport Business Park Ltd (Moray Estates, Highland s & Islands Airports Ltd, Highland s & Islands Enterprise (HIE)), THC	Phase 1 servicing complete - 14.5ha of serviced land available. Coop's new 12,000ft ² distribution centre opened in Sept 2018. 2 platform Inverness Airport station opened in February 2023. 130 bed airport hotel opened in March 2020. 10,000ft ² distribution and training centre for a wind turbine builder and a 5,000ft ² industrial unit for a pump supplier completed in 2020. Additional airport parking formed in 2021.
INE08 – Campus Area - 56.7ha Mixed uses allocation comprising INE08 Inverness Campus, INE11 Castlehill and INE12 Castlehill Road. Parts of the Campus site are identified as part of the Inverness & Cromarty Firth Green Freeport.	Ongoing	Not known	HIE, University of the Highland s & Islands, THC	Plots and configurable building space available for offices, workshops, laboratories and co-working research and development. Scotland's Rural College's Rural & Veterinary Innovation Centre opened in 2023. National Treatment Centre (Highland) opened in 2023. Life Sciences Innovation Centre, hotel and sports facilities planned for next phases. Parts of the Campus designated as part of the I&CF Green Freeport Tax Site in February 2024.
INC09 and INC11 Former Longman Landfill INC09 'Former Longman Landfill West' (Mixed Use: Business, Industry, Temporary Stop Site for Travelling People) - Area - 20ha and INC11 'Former Longman Landfill East' (Industry including Energy from Waste Plant) - Area - 19ha		Not known	THC (Inverness Common Good Fund), SEPA, Transport Scotland	Feasibility work and funding decisions still ongoing around A9/A82 junction improvement. It is likely that a Longman Development Brief will be progressed for the area to specify planning parameters and delivery details. Parts of the former landfill area were designated as part of the I&CF Green Freeport Tax Site in February 2024.
IA02 Dalcross Industrial Estate Expansion Area - 10.4ha allocated for employment uses (Class 4,5,6)	Ongoing	Not known	THC	Future development and layout will now be subject to no net detriment to the operational requirements of the existing heliport.
CS01 Castle Stuart Area - 91.6ha allocated for Business uses	Not known	Not known	Landowner/Developer (Cabot Highlands)	Second 18 hole golf course, "Old Petty" under construction scheduled to open in 2026. Planning applications and permissions to extend club house and add 38 lodge apartments.
FG01 Fort George Area - 50.1ha allocated for Mixed Use	Land and buildings should be surplus to MoD use in 2032	Not known	Ministry of Defence (Defence Infrastructure Organisation), Historic Environment Scotland, THC	DIO are undertaking initial feasibility work on site's development potential for when it is declared surplus.

INC06 Port of Inverness (Harbour Gait) Area - 30 ha Inverness Harbour and expansion land to the east is identified as a Mixed Use allocation- site reference INC06 'Harbour Gait'.	Ongoing	Not known	THC, Port of Inverness, HIE	Parts of the port area were designated as part of the I&CF Green Freeport Tax Site in February 2024. The Tax Site boundary extends along the River Ness waterfront towards the City Centre. Any green freeport proposals which would extend beyond the INC06 site boundary will be subject to an inclusive masterplanning process.
IG05 Invergordon - Area- 22.1 ha - is included within the 'Strategic Renewable Energy Zone' as shown in the Spatial Strategy and the section on the renewable energy sector within the economic strategy.	Ongoing	Not known	THC, Port of Cromarty Firth, HIE	Parts of the port area were designated as part of the I&CF Green Freeport Tax Site in February 2024. The Tax Site boundary extends outwith allocated land largely into the firth. Any green freeport proposals which would extend beyond the allocated site boundary will be subject to an inclusive masterplanning process.
HD01 Highland Deephaven Area - 150.2ha allocated for Industrial uses (Highland Deephaven for Industry, Business and Infrastructure uses.) Also, specific site reference EV05 Evanton Industrial Estate for industry uses.	Ongoing	Not known	THC, HIE, Landowner, Developer(s)	Parts of the allocated land were designated as an I&CF Green Freeport Tax Site in February 2024. The Tax Site boundary extends outwith HD01 and EV05. Any green freeport proposals which would extend outwith allocated land will be subject to an inclusive masterplanning process. Owner of Highland Deephaven is a member of Opportunity Cromarty Firth partnership progressing renewable energy projects.
NG01 Nigg Area - 242 ha allocated for industry Nigg Energy Park and adjoining land to the east is identified as an Economic Development Area and allocated for Industrial uses, site reference NG01 'Nigg Yard'.	Ongoing	Not known	Port of Nigg, THC, HIE	Parts of the allocated land were designated as an I&CF Green Freeport Tax Site in February 2024. A new quay is proposed to transfer HV cabling from the new manufacturing plant to vessels. New east quay completed in 2022. Any green freeport proposals which would extend outwith allocated land will be subject to an inclusive masterplanning process.
WH1 Whiteness Area - 292.5 ha allocated for renewables innovation, manufacturing and maintenance hub	Ongoing	Not known	Port of Ardersier (Haventus), Developer(s), THC, HIE	Parts of the allocated land were designated as an I&CF Green Freeport Tax Site in February 2024. Improvement to and extension of existing quays proposed to service offshore renewables industry. Any green freeport proposals which would extend outwith allocated land will be subject to an inclusive masterplanning process.
