

## **2.0 Scope of Specification**

This specification provides full and complete information for both design engineers and contractors to prepare and submit a fully compliant tender bid to The Highland Council.

Detailed in each section are the various regulations, design requirements and Highland Council policies and procedures which must be addressed, considered and included within every tender, in order to make that tender compliant.

Not only does the building services design scheme have to comply with Building Regulations, British Standards, CIBSE guides etc. but it must also comply with The Highland Councils policies & procedures, plans, guides, specifications and design requirements & conditions.
