

"An T-ionnsachadh og, an t-ionnsachadh biodheach"
"Learn young, learn well"

The project creates a new heart or focus for the school campus. With classrooms and subjects spread over several buildings the existing school can feel disjointed. The new extension connects to several levels of the existing ground floor thus increasing accessibility across the buildings. The connection across the courtyard forms a network of pupil spaces for dining and recreation, with a new pupil entrance. The new link takes up a unique form within the courtyard, free of influence of the neighbouring buildings. The extension is of contemporary materials and style to emphasise the modernity at the heart of the school and to ensure longevity of the proposals.
