

TAXI AND PRIVATE HIRE CAR LICENSING UNDER THE CIVIC GOVERNMENT (SCOTLAND) ACT 1982

NOTES FOR GUIDANCE

The following notes are a brief outline of the requirements for Taxi and Private Hire Car Licences under the above Act. They should be treated as **guidelines only and not an authoritative statement of law**. They do not purport to be more than a guide to the main provisions of the Act in order that would be applicants may consider if they need to apply for a Licence. Applicants are recommended to study the relevant provisions of the Act and obtain any further advice from their Solicitor.

IMPORTANT NOTE

Please note that the fee which is paid on submission of your application will not be refunded if your application is refused or withdrawn.

1 INTRODUCTION

Taxi and Private Hire Car Licences

In accordance with the Civic Government (Scotland) Act 1982, a Taxi Licence or a Private Hire Car Licence, issued by The Highland Council as licensing authority, is required for the operation of a vehicle as a Taxi or a Private Hire Car.

Taxi and Private Hire Car Drivers

Similarly, a Taxi Driver's Licence or a Private Hire Car Driver's Licence shall be required for driving or otherwise having charge of a Taxi or Private Hire Car. However, a person holding a Taxi Driver's Licence does not require a Private Hire Car Driver's Licence.

2 DEFINITIONS

- (a) **TAXI** means a hire car which is engaged, by arrangements made in a public place between the person to be conveyed in it (or a person acting on his behalf) and its driver for a journey beginning there and then.
- (b) **PRIVATE HIRE CAR** means a hire car other than a taxi.
- (c) **HIRE CAR** means a motor vehicle with a driver (other than a public service vehicle) which is, with a view to profit, available for hire by the public for personal conveyance.

- (d) **PUBLIC SERVICE VEHICLE** means a motor vehicle (other than a tram car) which is adapted to carry more than eight passengers and is used for carrying passengers for hire or reward.

If you have a vehicle which carries nine or fewer passengers (including the driver) which is, for a fee, available for hire by the public for personal conveyance you will require either a Taxi or a Private Hire Car Licence.

The main differences between Taxi and Private Hire Car are:

TAXI	PRIVATE HIRE CAR
A Taxi is required to display a Taxi sign on top of the vehicle approved by the Council	A Private Hire Car MUST NOT have a sign or other advertisement that suggests it is available for hire as a taxi
May wait on a Taxi Stance for trade	CANNOT wait on a Taxi Stance
May pick up passengers on the street without prior arrangement	May pick up passengers ONLY by prior arrangement
MUST have a meter affixed to the vehicle	MAY have a meter affixed to the vehicle
MUST be driven by a licensed taxi driver	Must be driven by EITHER a licensed taxi driver OR a licensed private hire car driver

3 OPERATOR'S LICENCE AND DRIVER'S LICENCE

The vehicle and the driver each require to be separately licensed. The licence for the vehicle is referred to in these notes as an "Operator's" Licence and each vehicle operated as a Taxi or a Private Hire Car requires a separate licence. The holder of an "Operator's" Licence must also obtain a Taxi or Private Hire Car Driver's licence in order to drive the vehicle to which his operator's licence relates.

4 OPERATOR'S LICENCE

Any vehicle proposed to be used a Taxi or Private hire car must:-

- (i) except with the approval of the Council, be less than five years old, unless it is a purpose built taxi, or equivalent, in which case it must be less than ten years old;
- (ii) be equipped to carry a minimum of four adult seated passengers (up to a maximum of eight adult seated passengers) in safety and comfort;
- (iii) have a minimum engine capacity of 55kw or 1575cc;
- (iv) have a minimum width of 122 centimetres (48 inches) across the rear passenger seat or compartment of the vehicle;
- (v) have a minimum of four doors capable of being opened from the inside;
- (vi) be fitted with a seat belt for each passenger;

- (vii) pass an initial inspection to an acceptable standard of safety and comfort and thereafter an annual inspection (except where the vehicle is older than five years the inspection period shall be every six months);

5 METERS

All Taxis must have a Taxi Meter which has been tested and approved by the Council. (Taxis **must** have a meter. Private Hire Cars are not required to have a meter but may fit one if desired. If fitted it must be tested and approved by the Council). Before a Taxi Operator's Licence is issued, or PHC licence where a meter is fitted, the meter must be tested by the Council. The current fee for this can be found on the Council's website, see link below http://www.highland.gov.uk/info/1125/licences_permits_and_permissions/306/licence_application_fees

Please note that the current tariff allows for an extra of 50p to be added to the fare for booking ahead e.g. by telephone. You should advise your meter agent that when calibrating your meter they must ensure that only 50p can be added. The meter should be calibrated in a way that regardless of the number of times the extras button is pressed it will only add 50p to each fare, if a prior booking has been made and you are entitled to charge this.

Following a change to the law relating to surcharges for card payments please note that as from 13 January 2018 taxi/ PHC operators/drivers will no longer be permitted to charge an additional fee to those customers who wish to pay by card e.g. debit, credit etc.

6 OBLIGATORY TEST CERTIFICATES (MOT)

Operators should be aware that, unlike ordinary vehicles which require an MOT after three years, **Taxis require an MOT Certificate after one year** of the date of first registration, in accordance with section 47 of the Road Traffic Act, 1988, and annually thereafter.

7 CONVERTED VEHICLES OR IMPORTED VEHICLES (INCLUDING WHEELCHAIR ACCESSIBLE VEHICLES)

If you wish to licence a vehicle which has been converted or has been imported, the Council needs to be satisfied that the vehicle is built to certain safety standards. This includes vehicles which have been converted for wheelchair accessibility. A vehicle will not be licensed until satisfactory documentation has been received.

Imported vehicles

If the vehicle is not registered in the EU, you will need to apply for an Individual Vehicle Approval:

<https://www.gov.uk/importing-vehicles-into-the-uk/getting-vehicle-approval>

If the vehicle is registered in the EU, you need to be able to provide the European Certificate of Conformity from the manufacturer to show you have approval for an EU registered vehicle.

Converted vehicles

If the vehicle you propose to licence has been converted, you will need to provide the appropriate certification:

- European Community Whole Vehicle Type Approval (ECWVTA) – a Certificate of Conformity is issued for each vehicle
- Individual Vehicle Approval (IVA) – This involves a physical inspection of the vehicle ensuring it is designed and constructed to modern safety standards.

There is further guidance on this available at the following link:

<https://www.gov.uk/vehicle-approval>

If you do not have a copy of the Certification you should obtain this from the company who carried out the conversion to the vehicle.

8 DRIVERS' LICENCES

- (a) The appropriate licence is required for driving, or otherwise having charge of, a Taxi or Private Hire Car. A person holding a Taxi Driver's Licence does not require a Private Hire Car Driver's Licence.
- (b) Any person who wishes to obtain a Licence to drive either a Taxi or a Private Hire Car must:-
- (i) have held a full driving licence for the continuous period of at least 12 months **immediately** prior to the date of the application;
 - (ii) be a fit and proper person to hold a Licence;
 - (iii) be 18 years of age or more;
 - (iv) if suffering from any physical or mental condition likely to affect his/her fitness as a driver or which might do so in the future or if over 65 years of age, undertake and pass an annual medical examination as to his/her physical and mental fitness to carry out the duties of a Taxi or Private Hire Car Driver;
 - (v) **for Taxi Drivers only** undertake and pass a knowledge test, which will include a general test of knowledge of the Highland and relevant local road network, tourist facilities and the Highway Code.

- (c) Comply with the Council's approved dress code as detailed below, be clean and tidy in their person or clothing, conduct themselves in a proper and civil manner and shall refrain from smoking in the vehicle at any time.

- Training shoes

- Polo shirts (unless they carry a logo specific to a taxi/PHC company)

(d) Immigration Act

Under the provisions of the Immigration Act 2016 which come into force on 1 December 2016, the Council will be unable, from that date, to grant a taxi driver or private hire car (PHC) driver licence unless a face-to-face check has first been made to verify that, as at 1 December 2016, the applicant is not disqualified by reason of his or her immigration status from driving a taxi or private hire car.

This means that all applicants for taxi or PHC driver licences, including UK passport holders, will require to attend their nearest licensing office in person with original documents (passport or other acceptable documents) demonstrating that they have the right to work in the UK.

Licensing staff will require to check the validity of the original documents in the presence of the applicant before the licence can be issued. The Council is required by law to retain copies of these documents.

This checking process is required for all current new applications and renewal applications. A further document check will only be required at subsequent renewal where the applicant's immigration permission to work in the UK is time-limited.

A list of documents which can be accepted for these "right to a licence" checks is attached below.

Please note that this checking process under the Immigration Act 2016 is in addition to the criminal history check which the Council carries out with Police Scotland for each applicant to determine the applicant's fitness to hold a licence.

The pass mark for the Knowledge Test is 75% for the highland section (section 1) and 85% for the local section (section 2). A sample knowledge test is attached to the Taxi Driver application form.

The test consists of two sections and the applicant must pass both sections. If an applicant fails one or both sections they will require to re-sit the sections which they failed, for which a re-test fee will be required.

The first section is multiple choice and includes questions in relation to highway code, landmarks etc. in Highland and shortest routes between 2 locations in Highland. The second section consists of a written test in relation to your local area and will include questions on shortest routes between 2 locations within that area and the locations of local landmarks etc.

19 TAXI/PHC DRIVER MEDICAL STANDARDS

Where an applicant or licence holder is over the age of 65 or where they have indicated to the Council that they suffer from any physical or mental condition that affects their fitness as a driver or which would do so in the future then they will be required to attend a medical examination. The cost of the medical examination will be met by the Council. The current Council policy is that anyone attending an examination must satisfy the Group 2 (PSV) Standard.

Applicants and licence holders who have Diabetes which is insulin treated would normally be automatically excluded from attaining the Group 2 standard, however the Council has agreed that where an applicant or licence holder can prove that they meet a number of qualifying conditions then they may drive or continue to drive a taxi or private hire car.

Further details on this including the conditions which require to be met can be accessed from the links below.

If your vehicle fails the Council's Taxi/PHC inspection and you are not satisfied with the outcome you may ask for the decision to be reviewed.

It is important to note that at the stage your vehicle fails inspection your licence is temporarily suspended. You will be given a statutory notice confirming this temporary suspension, the reason(s) for it and the deadline for rectifying the defect(s) which the Council has identified.

If you wish to dispute the defect(s) identified by the Council, please immediately contact the Council's Trading Standards Service who will arrange for the main vehicle inspection contractor, Riverford Auto's, to inspect the disputed item(s). If Riverford Auto's carried out the initial inspection one of the other garages which has been authorised to carry out Taxi/PHC inspections will be asked to carry out the further inspection.

If, following the re-inspection, the garage accepts your representation, the original decision will be reversed and the vehicle will have passed the inspection. The statutory notice will be withdrawn and the temporary suspension will end.

Should the garage uphold the original decision you must rectify the defect(s) listed on the statutory notice and then submit your vehicle to the place appointed in the

statutory notice for a further inspection and test. This must all be done within 28 days of the date of the statutory notice (the start of the temporary suspension), otherwise your licence will automatically become permanently suspended for the unexpired portion of the duration of the licence. At this stage you will have no further rights of review by the Council but you will have the right to appeal against the permanent suspension to the Sheriff. Any appeal must be made to the Sheriff Court within 28 days of the date your licence became permanently suspended.

The above applies also to applications for a new licence although in this scenario the licence is not granted rather than being suspended. In that event, you can appeal to the Sheriff against the Council's decision to refuse to grant the licence and any such appeal must be made to the Sheriff Court within 28 days of the decision to refuse to grant the licence.

23 TAXI & PHC PENALTY POINTS SYSTEM

This section explains the penalty points system in operation within Highland Council and provides basic guidance to Taxi and PHC operators and drivers on its use. It is not a complete or an authoritative statement of the law relating to taxi and PHC businesses.

1. What is it?

1.1. The Penalty Points System (the system) is an evaluation tool used by Trading Standards staff to determine whether the licensed vehicle of a Taxi/PHC operator or driver, when examined over a period of time, has reached a point where the matter justifies referral to the Licensing Committee.

2. Why was it introduced?

2.1. The system was introduced in 2006 following concerns expressed by Members of the Civic Government Licensing Working Group about the level of safety related failures recorded during the routine vehicle examinations undertaken by the Council's appointed contractor.

2.2. In addition to the real public safety concerns that existed, the time spent by Trading Standards staff suspending unsafe vehicles from use and chasing up licensees to remedy other defects found, was seen as wasteful and inefficient.

2.3. Trading Standards have used the system since then to maintain the general standard of Taxi's and PHC's operating within Highland.

3. What is the principle of the system?

3.1. The system is a way of demonstrating to licensees any failures to maintain and otherwise operate a licensed vehicle, including unacceptable actions or omissions by a licensed driver. The system encourages self-regulation and by routine scrutiny provides a fair process for all licensed operators/drivers.

3.2. In addition, it provides a clear decision making process for Trading Standards staff to report a matter to the Licensing Committee. The system can be seen as being fair and transparent. Members can also be confident that a consistent approach is being taken and that the behaviour of one licensee can be easily compared against that of other licensees as well as against the standard set by the Council.

4. **How does it work in practice?**

4.1. The current Penalty Points Tariff is annexed to this document. The tariff was drawn up by reference to existing DVSA guidelines on the categorisation of vehicle safety defects. Other non-safety elements of the tariff were agreed by the Civic Government Licensing Working Group members.

4.1.1. The tariff was last reviewed by the Civic Government Licensing Working Group during 2009.

4.2. Different categories of licence holder will be liable to have Penalty Points allocated for different events or defects found. This is due to the very specific responsibilities that are applicable to licence categories; examples of this are as follows: -

4.2.1. A licensed Operator has overall responsibility for the vehicle and will therefore be liable for safety defects discovered which should have been detected by appropriate routine maintenance.

A licensed driver also has some responsibility for the safety of the vehicle, but whilst it is seen as reasonable that he/she should carry out an examination of the vehicle at the start of a shift and detect tyres that are below the legal tread depth, he/she is not liable for defects which would take a mechanic to identify.

4.2.2. A licensed operator cannot be liable for the failure of a licensed driver to display his identity badge. In such circumstances penalty points will only be allocated to the driver.

4.2.3. In some cases e.g. the “bald tyres” scenario, both driver and operator would be allocated penalty points as both have equal liability.

4.3. Vehicle defects are recorded on the Trading Standards database. These include defects discovered during:

- Routine Council examinations
- inspections carried out on taxi ranks and elsewhere while vehicles are in use
- complaint investigations, and
- any necessary follow-up actions e.g. warnings issued where remedial work has not been carried out as required.

This record entry is automatically translated into the relevant number of Penalty Points according to the agreed tariff.

- 4.4. A licensee can appeal to Trading Standards operational staff against the allocation of penalty points and, in cases where circumstances justify, an adjustment to the allocated points will be made.
A further route of appeal to the Trading Standards Team Leader is also available, should this be necessary.

5. **What is the Formal Action Trigger Point?**

- 5.1. The “Formal Action Trigger Point” has been set at a total of 20 Penalty Points during any 2 year period.
- 5.2. If any licensee accumulates 10 points or more they will be formally notified in writing of this fact and given the opportunity to discuss the matter with a member of Trading Standards staff.
- 5.3. Where the “Formal Action Trigger Point” is reached or exceeded, the preparation of a report to the Licensing Committee will be triggered.
- 5.4. Licensees are then notified in full of the faults or problems which have led to the penalty points accumulated and are given the opportunity, before the report is submitted, to make representations to the Trading Standards Manager in relation to the matter.
- 5.5. A report would only go ahead if the Trading Standards Manager is content that such a report is justified.

6. **What information will the report to the Licensing Committee contain?**

- 6.1. The report will identify the licensee to which the case relates. This could be a licensed operator, licensed driver or both.
- 6.2. Where a report is made against a licensed operator who is also a driver, the report may only be in relation to one of the licences he/she currently possesses.
- 6.3. The Penalty Points accumulated by the licence will be identified, as will the full facts including vehicle inspection reports, complaint outcomes, warnings issued and any other evidence relevant to the case. It is on the basis of the total evidence and not simply on the Penalty Points total that the case will be submitted.

24 PRIOR REFUSAL

Please note that if you have applied for and been refused an application for an Operator’s or Driver’s Licence in one Area of The Highland Council then, unless your circumstances have altered, you will be unlikely to be granted an application made in another Highland Council Area.

If refused, you cannot apply for the same kind of licence in respect of the same activity in the same area (or, where the activity includes the use of a vehicle, for the same vehicle) within one year of that refusal unless there has been a material change in circumstances.

25 HEARINGS

Occasionally, and always if there is an objection to the granting of a Licence, a Hearing of the Area Committee of the Council will be held to decide whether or not a Licence should be granted. If the application is to be referred to a Hearing you will be invited to attend and notified in writing of the date, time and venue. A further appeal lies to the Sheriff Court.

26 OFFENCES

The following are criminal offences liable, on summary conviction, to a fine and/or imprisonment:-

- (a) Carrying on an activity for which a Licence under the Civic Government (Scotland) Act 1982 is required without such a Licence;
- (b) Failing to comply with a Condition of a Licence;
- (c) Failing to notify the Council of a material change in the circumstances of a Licensee;
- (d) Failing to obtain the consent of the Council before making any material change to any premises, vehicle or vessel to which the Licence relates;
- (e) Failing to surrender the Licence (1) after it has been suspended or (2) when the Licensee has given up the activity to which it relates;
- (f) Failing to surrender an Operator's Licence and Licence Plate to the Council within TWENTY-EIGHT DAYS of selling or otherwise disposing of the vehicle to which the Licence relates.
- (g) Failing to disclose convictions in the Application Form;
- (h) Making a false statement when filling in the Application Form.

The above list is not exhaustive and reference should be made to the Civic Government (Scotland) Act 1982 for all offences under the Act.

THE HIGHLAND COUNCIL

CARRIAGE OF GUIDE, HEARING AND OTHER ASSISTANCE DOGS

ADVICE FOR TAXI AND PRIVATE HIRE CAR DRIVERS

The Taxi Drivers' Licences (Carrying of Guide Dogs and Hearing Dogs) (Scotland) Regulations 2002 and the Private Hire Vehicle (Carrying of Guide Dogs and Hearing Dogs) (Scotland) Regulations 2004, require licensed taxi drivers and private hire car drivers to carry guide, hearing and other assistance dogs accompanying disabled people in their vehicle, and to do so at no extra charge. The dog must also be allowed to remain with the passenger.

A condition to this effect is attached to all taxi and private hire car driver licences which the Council issues. However, applicants for, or holders of, taxi or private hire car driver's licences who have a medical condition that would be aggravated by carrying dogs in their vehicle can apply for exemption from this licence condition. Drivers who are granted exemption from the requirement to carry guide, hearing or assistance dogs in their vehicle will be issued with a notice of exemption to display in the taxi or private hire car that they are driving.

TYPES OF DOGS COVERED

A guide dog trained to guide a blind person. Such dogs normally wear a harness.

A hearing dog trained to assist a deaf person. Such dogs normally wear a jacket with the name of the charity.

Any other assistance dog trained by a charity to assist a disabled person with a physical impairment, such as epilepsy, or which otherwise impairs a person's ability to carry out routine daily tasks – the dog must be wearing a jacket inscribed with the name of the charity.

In the event that a taxi or private hire car driver has any doubt over entitlement, the owners of these dogs should be able to produce an identity card showing the name of the relevant charity that trained the dog. **It is important to remember that all of these dogs are highly trained and will remain on the floor of your vehicle. They are very unlikely to damage or dirty it.**

FAILURE TO COMPLY WITH THE DUTY

By failing to comply with a condition of licence, a taxi or private hire car driver will (unless exempt from the requirement) be guilty of an offence under Section 7(2) of the Civic Government (Scotland) Act 1982 and will be liable on conviction of a fine up to £1,000. It would also be open to the Council to consider suspending the licence.

EXEMPTIONS FROM THE REQUIREMENT TO CARRY DOGS

Exemption from these duties can be sought on medical grounds only. It is anticipated that the number of drivers whose medical condition is so serious that they cannot carry dogs in their vehicle will be extremely small.

If you have a medical condition, such as severe asthma, which is aggravated by contact with dogs, or if you are allergic to, or have a chronic phobia of, dogs it may be possible for you to qualify for an exemption. Application for an exemption should be made to your local Council Office. **An application form for this purpose can be downloaded at https://www.highland.gov.uk/downloads/file/3512/taxi_exemption_from_guide_dogs_application**

When considering your application for an exemption, the Council will require details of your medical condition and may require you to undergo a medical examination and/or give permission to contact your GP. If your application for exemption is successful you will be issued with a notice of exemption which will specify the vehicle or types of vehicle to which the exemption applies. You must display the notice of exemption by fixing it in a prominent position on the dashboard facing upwards or on the windscreen of the vehicle facing outwards. The exemption notice must only be displayed when the person named on the notice is driving the vehicle.

APPEALS AGAINST REFUSAL TO GRANT EXEMPTION

In the event that the Council turns down your application for an exemption, you can obtain reasons for the Council's refusal and appeal to a sheriff against the decision if you consider it appropriate to do so.
