Position in Settlement Hierarchy	Small Village
2005 Estimated Population	71
Housing Completions 2000-2007	3
Primary School (Melvich)/ Secondary School Capacity	47% / 55%
Water Capacity	Capacity
Sewerage Capacity	Unknown
	Capacity is currently und assessment

### Prospects

Melvich and Portskerra sit at the mouth of the River Halladale with local services and amenities shared between the two communities. The septic tank which serves both Portskerra and Melvich is nearing capacity. The allocated land in Melvich has the capacity to provide for the long term growth of the settlement but there is also opportunity for infill development alongside. However this must respect the existing dispersed pattern of development.

#### **Development factors**

- Important views over open water across Melvich Bay should be protected;
- Avoid skylining development on land to the west of the road;
- Remains of the stone wall boundaries should be left as intact as possible; any alteration requires an extensive photographic record to be made recording the feature in its original setting;
- Low downward emission design street lights.
- Development proposals will have regard to the proximity of the North Caithness Cliffs SPA; ٠
- Any developments served by private waste water system (in compliance with General Policy 7) will ٠ require to drain to land to safeguard water bodies.

#### Site Allocations

Site Ref.	Site Area	Location	Housing Capacity	Developer Re
B1	0. <u>3</u> ha	West of Melvich Terrace		Completion of served by the Road construct
H1	1.5ha	West of Pentland Terrace	25	Access should existing busine consent and a Requirement t as natural feat

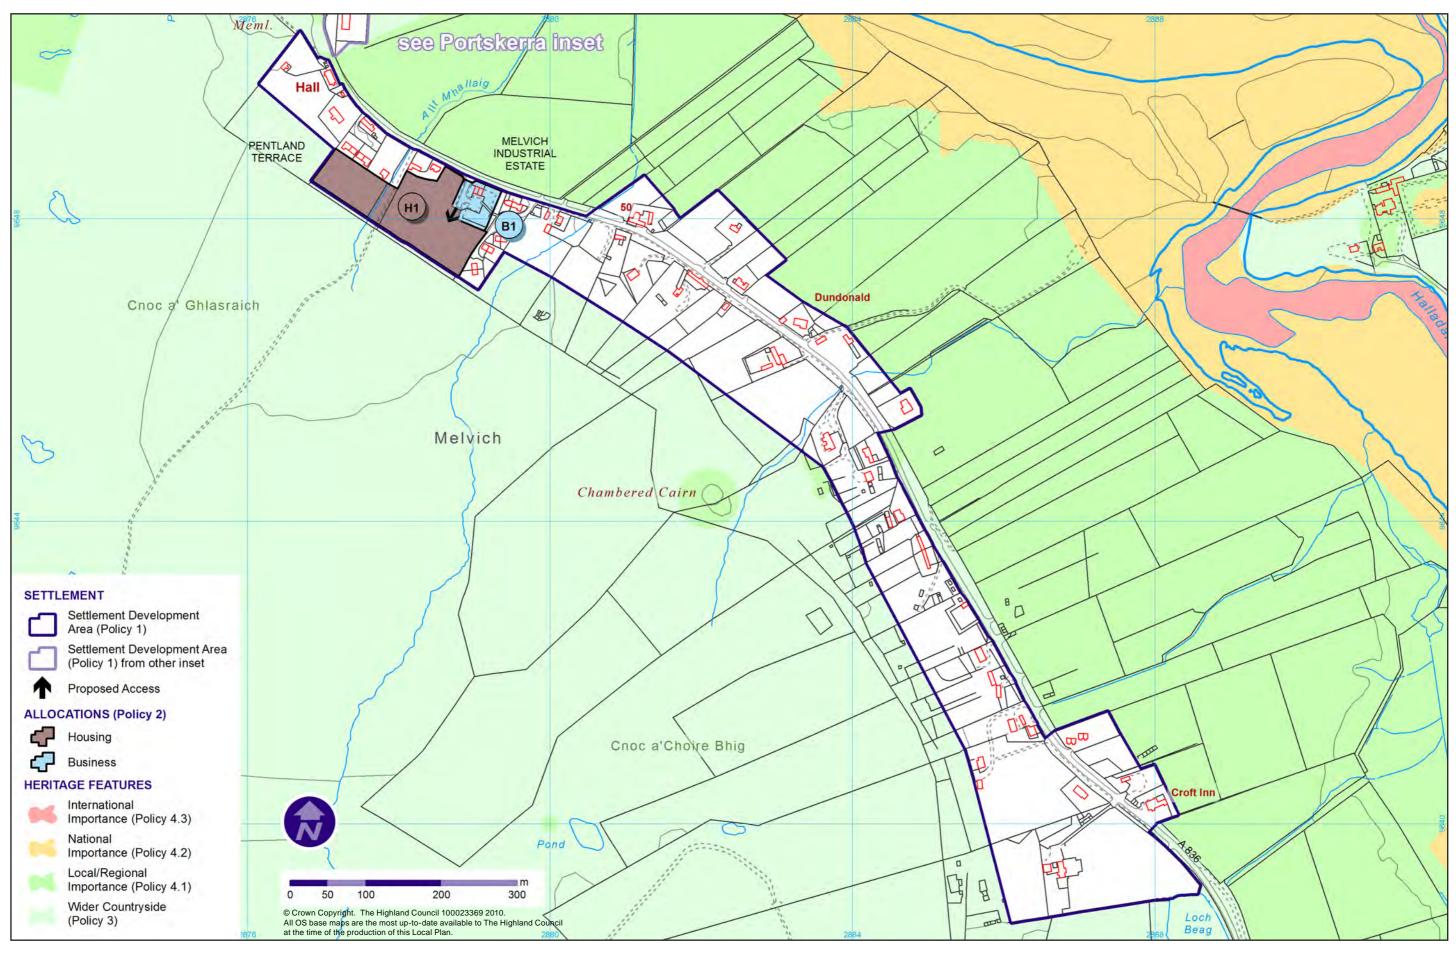

(Housing capacities are indicative only and given on the basis of likely development densities.)

## **INSET 17.2: MELVICH** Inset 17.2 : A' Mhealbhaich

der	

Deleted: The Highland Renewable Energy Strategy and Planning Guidelines identifies land south of Strathy and Portskerra/Melvich as a possible area for national and major wind farm development and an application is currently under consideration at Strathy forest.

Requirements	
of the courtyard. Access should be e road for the existing business units. uction consent is required.	Deleted: 1
Id be served by the road for the ness units. Road construction a design statement will be required. t to retain and integrate watercourses atures within the development.
