Comment Changes

Land towards Fearn side of Fendom road not reclassified.

Representation

The land is currently prime agricultural land and used as such so there is no need to change this as there is plenty of land (particularly on the other side of this road where there are no houses). In addition, I have major concerns regarding all types of potential pollution as a result of change of use of the land. There are a number of children living in this area. The exact use of for this land has not been made clear which is unacceptable when we are asked to give our views on this.
