

Item 9 - Question Time

Response to Mr A Baxter

The Council at its meeting on 7 February 2013 did not agree that there would be £1million allocated for roads within the Strategic Change and Development Fund but rather “NOTED that the Administration would welcome bids into the Strategic Change and Development Fund on roads up to £1m...”.

The criteria for applications for funding from the Strategic Change & Development Fund are the subject of a separate paper on today’s agenda. The level of funding could not be clarified until the completion of the Council’s Accounts for 2012/13.

Amongst the recommendations arising from the report to this Council meeting is a proposal to allocate £1m from the Strategic Change & Development Fund towards Road Maintenance.
