Corporate Capital Monitoring to 31 December 2015

Report by Director of Finance

Summary

This report provides an overview of expenditure on the General Fund and Housing Revenue Account (HRA) capital programmes for the period from 1 April to 31 December 2015 and the estimated position for the 2015/16 financial year.

1. Background

- 1.1 The purpose of this report is to present an overview of the position of the 2015/16 capital programmes as at 31 December 2015. The figures presented include net expenditure to date, the net annual budget and the estimated outturn for the financial year.
- 1.2 This report is produced in support of the Council's corporate governance process, which in turn is designed to support the Council's corporate delivery of its obligations in terms of the Single Outcome Agreement.

2. General Fund Capital Programme

- 2.1 Annex 1 Table A shows net year to date expenditure of £81.195m against the 2015/16 General Fund capital budget total of £119.180m. At the year end the estimated outturn is £115.962m. Slippage on projects amounting to £4.786m will be carried forward to match the expenditure in future years. The remaining amount of £1.568m is the anticipated overspend on the capital programme for the financial year, the funding of which will require to be considered by Services before the financial year-end.
- 2.2 The Capital Plan for financial years 2015/16 to 2023/24 was agreed by Highland Council on 17 December 2015. The budget figures presented are adjusted for underspends brought forward from 2014/15 and slippage carried forward to 2016/17 as shown in Annex 2.
- 2.3 The funding of the capital plan and adjustments for project slippage or acceleration for a 3 year period are detailed on Annex 2. This annex tracks movement between financial years and makes the required adjustments to the programmes funding arrangements.
- 2.4 Annex 3 provides Members with whole of life project information for individual projects with a budget of greater than £4m.
- 2.5 Members, when approving the programme, requested confirmation that the funding arrangements for the Capital Plan were sustainable. The assumptions made are based on the best information available and will allow the delivery of the Plan. However if revenue settlements continue to tighten, then a review of

the size and affordability of the current plan may be required.

3. General Fund Variances

- 3.1 Care and Learning Service
- 3.1.1 The Care and Learning Programme has an anticipated variance of £3.075m. Since the previous report to Resources Committee, ECAS committee have approved budget increases for two major projects in the Care and Learning capital programme. The budget for the Portree Gaelic Primary school project was increased by £1.515m to £10.8m with three factors contributing to the increased cost - market conditions, the increased cost of certain building elements (principally external walling and ventilation) and increased contract duration. The budget for the Caol Joint Campus primary school project was increased by £0.25m to £15.94m due to an increased scope for the project including the relocation and replacement of the existing community multi-use games area and the widening of Glenkingie Street and other offsite works to address potential traffic and parking problems in the area. Funding for both of these approved changes was allocated from the generic Life Cycle budget.
- 3.1.2 Actual and forecast overspends have been identified against two major projects, the Portree High School hostel (£0.2m) and the improvements at St Duthus and St Clements special schools (£0.375m), and a significant overspend has been forecast for the Cromarty Primary school extension project (overspend of £0.5m forecast against a total project budget of £2.75m). In total, overspends of £1.175m have been identified against Care and Learning's significant projects and a detailed report on the causes of the overspends and proposals for how they will be managed will be presented to the ECAS meeting in March.
- 3.1.3 In terms of programme some potential delays to project completion dates have been identified and again these will be reported on in more detail at the next meeting of the ECAS committee. Projects already underway for which the completion date is likely to extend include the refurbishment of Inverness High School, Portree High School hostel and the new Portree Gaelic Primary.
- 3.1.4 In the current year slippage has been identified in a number of projects across the programme and acceleration of some projects funded from the lifecycle budget heading only partially offsets this. In total a further £3.65m of slippage has been identified since the November report to this committee, meaning total slippage of £5.188m from the budget at the start of the financial year.
- 3.2 The Chief Executive's Service is anticipating a year end underspend of £0.116m. Slippage of £0.066m on the ICArts River Connections Project will be carried forward to 2016/17. An underspend of £0.050m arises from the Carbon Clever Community Grant Fund, although this may decrease if suitable applications are approved at relevant committees before the end of the financial year.
- 3.3 Community Services is predicting a net variance of £1.002m. The net variance is represented by slippage of £1.002m which will be carried forward to 2016/17. There are a number of overspends in respect of burial grounds and replacement cremators at the Crematorium in Inverness and these will be funded by underspends principally from vehicles and plant purchases.

- 3.4 The Corporate Development Service anticipates a year end underspend of £0.489m due to slippage in SWAN, Service Point Improvements and the Unified Communications project which requires £0.474m to be carried forward to 2016/17.
- 3.5 The Development and Infrastructure Service is predicting a net variance of £0.878m. The net variance is represented by slippage of £2.203m; accelerated expenditure of £2.023m; and a net overspend on projects of £1.058m. The major overspends are at Stromeferry (£0.526m) for ongoing stabilisation works to the rock face; additional works to the retaining wall at Achnasheen (£0.165m); and an anticipated compensation payment due on the South West Inverness Storm Relief Channel (£0.353). The overall Service capital programme will have to be adjusted to take account of these net overspends, and will be reported as part of the capital outturn report for 2015/16.
- 3.6 Carbon CLEVER expenditure is anticipated to be higher than previous reported estimates but ultimately a carry forward £0.255m is predicted due to a lack of suitable projects being identified in 2015/16.
- 3.7 The Discretionary Fund budget of £2.169m has projects of £1.129m committed against it as follows:

| | £000 |
|-------------------------------------|-------|
| War Memorials | 310 |
| Highland Hospice | 200 |
| Lochaber Sports Association | 200 |
| Kyle of Sutherland DT Falls of Shin | 100 |
| Kirkmichael Heritage Centre Project | 70 |
| Foyers car parking | 65 |
| Poolewe and District Swimming Pool | 50 |
| Archie Foundation | 50 |
| Eden Court Theatre Orchestra Pit | 40 |
| Merkinch Welfare Hall | 29 |
| Merkinch Community Centre | 15 |
| | 1,129 |
| Uncommitted balance | 1,040 |
| Total budget | 2,169 |

4. Housing Revenue Account (HRA) capital programme

- 4.1 A summary of the HRA Capital Programme is shown at Annex 1 Table B.
- 4.2 The projected outturn for net expenditure is £54.928m leading to a net variance of £10.098m. The net variance is represented by slippage of £1.919m; accelerated expenditure of £0.267m; and a net underspend of £8.446m. The net variance comprises an underspend on the Scottish Housing Quality Standard of £9.116m and an overspend of £0.670m in the Council house building element of the HRA capital programme. The principal reasons for the underspend are unutilised contingency sums in Scape contracts and a fall in the number of required heating installations to properties as a result of the end of the financial year.

5. Implications

- 5.1 Resource implications: The total amount in the General Fund carried forward to future years due to slippage has increased by £4.786m to £19.090m at December. This will feed through to underspends in the revenue budget but also increase the level of capital spend expected in future years and thus put pressure on capacity in the market. After removal of slippage an overspend of £1.568m is anticipated in 2015/16. Services will require to identify reductions in future allocations by the financial year end to allow this overspend to be funded.
- 5.2 There are no risk, legal, equalities, climate change/Carbon Clever, Gaelic or rural implications arising as a direct result of this report.

Recommendation

Members are invited to consider the financial position of the General Fund and HRA Capital Programmes as at 31 December 2015.
