

Agenda Item	5.2
Report No	PLS 051/19

HIGHLAND COUNCIL

Committee: South Planning Applications Committee

Date: 7 August 2019

Report Title: 19/02872/PAN: The Highland Council
Land 370M SE Of Balloch Farm, Cherry Park, Balloch, Inverness

Report By: Area Planning Manager – South

Purpose/Executive Summary

Description: Proposed residential development

Ward: 17 – Culloden and Ardersier

Recommendation

Members are asked to note the submission of the PAN and highlight any material issues they wish to be brought to the attention of the applicant before the submission of the application for planning permission.

1. BACKGROUND

- 1.1 To inform the Planning Applications Committee of the submission of the attached Proposal of Application Notice (PAN). This was an updated of the PAN previously submitted under reference 19/01255/PAN. The re-submission is due to the change in the proposed red line boundary to reflect land required for the potential access solution.
- 1.2 The submission of the PAN accords with the provisions of the Planning etc. (Scotland) Act 2006 and was lodged on the 20 June 2019. Members are asked to note this may form the basis of a subsequent planning application
- 1.3 The submitted information attached includes:
 - Proposal of application Notice
 - Location Plan

2. DESCRIPTION OF PROPOSED DEVELOPMENT

- 2.1 Based upon the information provided, the development is likely to comprise of residential development of around 300 homes, with associated landscaping, parking and infrastructure.
- 2.2 The applicant has sought pre-application advice from the Planning Authority via the Pre-Application Advice Service for Major Developments.

3. SITE DESCRIPTION

- 3.1 The site comprises of an area of undulating ground which rises from north to south. The site is currently in agricultural use and bounded by trees to the east and west. Residential development is located to the west (Culloden) and to the east (Balloch).
- 3.2 Access to the site would be Barn Church Road via an existing junction which leads onto Cherry Park. The existing junction may require upgrades. Access for non-motorised users would likely be via the same route with a number of informal paths running through the site which can also be used as active travel links.
- 3.3 There are a number of sites designated for natural heritage interests in the wider area however, they are unlikely to be affected by the development.
- 3.4 There are no scheduled monuments within the site. There are a number of listed buildings and archaeological records, identified within the Highland Historic Environment Record, which exist in proximity to the site but would unlikely be affected by development of the site. The site is in an area of archaeological potential.
- 3.5 Within the site there are some areas at risk of surface water flooding based on the indicative flood risk mapping provided by SEPA.

4. DEVELOPMENT PLAN POLICY

The following policies are relevant to the assessment of the application

4.1 Highland Wide Local Development Plan 2012

9 - A96 Corridor Phasing and Infrastructure
28 - Sustainable Design
29 - Design Quality & Place-making
