**HIGHLAND COUNCIL** 

Agenda Item	4
Report No	RB/01/21

		110	
Committee:	Recovery Board		
Date:	25 January 2021		
Report Title:	Recovery Action Plan: Phase 3		

## Report By: Executive Chief Officer - Transformation

#### 1. Purpose/Executive Summary

- 1.1 The Highland Council Recovery Action Plan Progress Report Phase 3 is presented to the Board for consideration.
- 1.2 A summary of progress to the end of phase 3 (to end Dec 2020) is provided at table 6.1 and further detail on each Key Priority (KP) is at appendix 1. Of the 79 individual tasks, 13 tasks show slippage at the following Key Priorities: two at Financial Recovery, one at Community Empowerment, eight at IT Transformation, one at Leadership, Culture and Performance and one at Asset Management, as at 31 December 2020 and these are further explained at table 6.4.
- 1.3 Work on 'critical enablers' for the Council to continue to move forward in Recovery specifically Key Priority four, the Council's Financial Recovery, was prioritised prior to the Festive break and emphasis on budget work will continue in the coming weeks. Further progress has been made with Service Redesign and Workforce Planning and under Key Priority 2 Lockdown Agility, the Chief Executive and ECOs undertook staff engagement sessions during December 2020. Following those, fresh homeworking guidance (appendix 2) was issued to managers and staff which instructed, amongst other matters, that: Managers should ensure that staff working from home complete the Homeworking Risk Assessment and share results with their manager; and that Managers should enquire regularly about their employees' wellbeing and seek to recognise early signs of stress. Prior to Lockdown Staff have been permitted to arrange transfer of their Council office workplace tools (e.g. computing equipment, chairs, desks) to home settings. Further staff communications have followed and will be updated regularly in the fluid context of Covid.
- 1.4 **PPE.** Staff are able to request, order and receive the necessary Covid-19 PPE items as required and defined by risk assessments. There are currently no marketplace notifications of supply constraints. For the main Covid-related PPE items (e.g. nitrile gloves, face masks, sanitiser, and Oxivir Plus) we have the 3-month buffer stocks ECO Property & Housing has sought to ensure resilience. There are no current notifications from suppliers regarding supply chain difficulties. For noting, Oxivir Plus is the Council-approved spray product for use by pupils and/or teachers in-class for cleaning desks etc.

- 2.1 Members are asked to consider:
  - i. the latest summary of progress against the Council's Recovery Action Plan for phase 3 to end December 2020.
  - ii. the associated implications and pressures on resources in the delivery of increased response and resilience activity in light of the latest Covid-19 measures.
  - iii. Any recommendation or observations to Council in respect of progress on the Recovery Plan and associated actions.

#### 3. Implications

- 3.1 Resource: The staffing resources required to deliver these 11 key priorities are being deployed from within the Council's existing resources. This approach ensures that the powerful matrix of skills and knowledge across the organisation are being utilised effectively while also managing ongoing operational delivery and compliance with statutory requirements and changing national guidance. The new lockdown measures are expected to impact on Recovery Action Plan delivery, and progress reports will continue to detail any such impacts.
- 3.2 Legal: While there are no presenting legal implications at this stage in the Programme, Sponsors will seek legal advice and take appropriate actions as required.
- 3.3 Community (Equality, Poverty and Rural): All the Recovery Workstreams will embed our equalities and Fairer Scotland duties. Equality impact assessments are currently being compiled led by the respective sponsors/leads and supported by the Transformation Service and Principal Policy Officer (Equalities).
- 3.4 Climate Change/Carbon Clever: There are no immediate Climate Change implications associated with this report. An update on Climate Change work is provided later in today's agenda.
- 3.5 Risk: The Recovery process has many risk elements across the 11 key priorities. Significantly, risks relate to reduced capacity to focus on recovery while we:
  - move into a heightened period of resilience;
  - undertake new joint work with NHSH to sustain the delivery of adult social care services and support the roll out of the vaccination programme;
  - respond to new work arising from Brexit;
  - support staff through another period of lockdown and resilience, paying attention to health and wellbeing impacts; and
  - financial challenges as a result of this pandemic.
- 3.6 There are no specific Gaelic implications arising from this report. Opportunities to promote and enhance Gaelic will be picked up across a number of the workstreams and as part of the culture/tourism theme within Economic Recovery in particular.

#### 4. Background and Operating Context

4.1 Members are asked to consider the progress that has been made up to the end of phase 3 (31 December 2020). Coincident with the end of the phase 3 reporting period,

there was an increase for Highland to level 4 of the Scottish Government's (SG) Tier based Covid-19 local protection levels on 18 December 2020 and introduction of further restrictions announced on 4 and 13 January 2021. This means that the Council, staff, partners and communities are once again in a heightened response posture with a significant priority given to resilience activity. In this context of emergency response and execution of contingency plans in response to lockdown measures, the activity associated with the Recovery Plan over the coming weeks and months will be impacted as resource becomes stretched in responding to the lockdown and pressing resilience work. With the latest lockdown, cognisance of additional front-line service delivery contingency measures, requirements for all staff on the shielding list to work from home, care of the sick and protection of vulnerable citizens will also be at the forefront of efforts in the coming weeks and months

- 4.2 The Recovery Action Plan reached a third milestone the end of Phase 3 at the end of December 2020. Of the 79 tasks 13 showed slippage. The Council has continued to deliver against the extensive Recovery Action Plan while supporting resilience requirements and dealing with the effects of pandemic in parallel. The move from SG Tier 1 to Tier 4 in December and then further into Lockdown measures on 4 January 2021 presents a significant challenge to the timeous deliverability of the Recovery Plan, reinforcing the importance of such progress reports and innovative use of existing technology, in this case PRMS. These changes also present further challenge with regard to service delivery, for all staff on the shielding list to work from home, providing assistance to vulnerable citizens and supporting the NHS. The rapidly changing situation with regard to the national pandemic also underscores the need for the Recovery Programme to be agile in its approach, not just with regard to timescales and resourcing but also in terms of content as reflected in the new actions agreed by the Council on 7 January 2021 and set out at paragraph 4.5.
- 4.3 In line with Programme Management Office (PMO) principles, exception reporting continues to enable staff and Members to understand the work that has been achieved since June 2020 and to focus on those tasks that are under pressure against timelines and milestones.
- 4.4 Real-time' reporting via PRMS (Performance and Risk Management System) is now available and has been used in the compilation of this report.
- 4.5 At the Highland Council meeting on 7 January 2020, Members agreed a motion as detailed below. It is intended that updates are reported through the Recovery Board. The Recovery Action Plan (Appendix 1) will also be formally updated to help support progress monitoring. ECO Communities & Place has been identified as the lead sponsor for this motion, and more detail will also be reported to the appropriate Strategic Committees. Motion detail as follows:
  - 1. Prepare a Resilience Group Support Programme to provide practical support for local resilience groups as we identify funding support that can be provided or diverted.
  - 2. Introduce a weekly virtual briefing for Resilience Groups and Community Councils convened by the Chief Executive (or appropriate ECO) and the Leader of the Council (or senior administration councillor).
  - 3. Identify resources to train appropriate staff in the provision of Mental Health First Aid to provide additional support for school staff in dealing with the mental health issues experienced by young people during the lockdown and beyond.
  - 4. Discuss with the Scottish Government (and other appropriate partners) the current operation of travel advice and identified loopholes in regulations that

expose areas of the Highland Council to higher risk and seek changes to these regulations where appropriate.

- 5. Prepare a Town Centre Recovery Plan, identifying what resources are available and what practical action the Council can take to support town centre and high street businesses.
- 6. Prepare a "Highland Opening-Up Plan" to identify risks and action required by the council as pandemic restrictions are eased in the future.

## 5. Board activity- updates

- 5.1 At the Recovery Board on 23 November 2020, the Board received a progress report on the exceptions to the Recovery Action Plan for phase 2, and Workforce Planning. Verbal updates were also provided on the economic recovery strategy, Brexit and readiness of buildings
- 5.2 Further discussion on Brexit took place at the 7 January Council meeting where a number of issues arising from the UK's exit from the EU were discussed and the complexity of the situation was recognised particularly since there are a number of other concurrent issues such as COVID. The Brexit Working Group met 14 January 2021 where it was agreed that there would be a Member seminar on 1 February 2021.
- 5.3 The Tourism Committee met on 3 December 2020, where they discussed and agreed their Terms of Reference. Following approval of theses minutes at the Highland Council on 7 January 2021 Members also agreed that the Tourism Committee would report to The Highland Council.
- 5.4 At the Recovery Board meeting in November it was agreed that nominations for Vice Chairs be submitted to Council for agreement. Leader of the Council, Councillor Margaret Davidson and Councillor Ian Cockburn were approved at Full Council on 7 January 2021
- 6. Route Map to Recovery 11 Key Priorities Progress Summary as at 30 December 2020
- 6.1 The table below presents a high-level status summary of the actions for each key Priority.

Recovery Action F	Recovery Action Plan Summary - Status of actions month: M9 20/21					
No. Completed		o. On Target	No. Some Sli	ppage 🔴	No. No Significant Progress	
Key Priority	Planned Tasks this Phase

RAP08: IT Transformation	11	3	0	8	0	
RAP09: Digital Transformation	6	0	6	0	0	
RAP10: Leadership, Culture and Performance	4	2	1	1	0	
RAP11: Asset Management	3	0	2	1	0	
Summary Total - M9 20/21	79	10	56	13	0	

- 6.2 The current position is; of the 79 actions due, 10 are complete, 56 are on track/ongoing and 13 show some slippage. Table 6.4 provides further details on these exceptions. Updates can also be viewed at appendix 1.
- 6.3 Where actions are shown as complete or on-track/on-going, using the PMO approach, these will be monitored periodically as part of the Recovery Board's programme assurance function and reporting by exception.

# 6.4 **Progress Update – Exceptions – Tasks show slippage.**

The table below lists the 13 action points where some slippage is reported against phase 3 due end Dec 2020.

Item	Key Priority	Action Point	Status	Remarks
1	Financial Recovery Strategy	CIPFA Implement CIPFA review findings - develop Medium Term Financial Plan (MTFP)	•	Given the hugely uncertain financial climate the development of a MTFP is particularly challenging. Work to develop MTFP will continue into 2021

				taking account of the
				evolving circumstances with regular updates provided to Corporate Resources Committee.
2	Financial Recovery Strategy	Capital Plan - Develop Capital Strategy	•	The strategic focus of capital work has been on the review and revision of the current capital programme (as reported to Council on 7 January 2021). Work to further develop the capital strategy will continue in Q1 2021 taking cognisance of the significant financial uncertainty as a direct result of Covid and the current lockdown.
3	Community Empowerment	Programme of community development and skills training	•	CPP led and not currently prioritised due to ongoing Covid resilience response. Opportunity to inform development through new resilience networks.
4	IT Transformation	Implementation of Phase 2 MS Teams training	•	Slippage due to operational priorities but training now in progress for Teams Stage 2 using the Council's IT Change Network
5	IT Transformation	Physical Refresh - Programme completion and closure	•	Still working through remaining corporate refresh. Further delays due to COVID. Expected completion by March 2021
6	IT Transformation	Commence fixed telephony review linked to MS strategic engagement	•	Dependencies on Microsoft engagement delayed due to COVID. This action will commence during Q1 2021
7	IT Transformation	CRM Stage 1 – Improve & Deliver as is current capability	•	Some slippage due to <i>Helping Hands</i> implementation which has had to be

				prioritised as part of the Council's Covid - 19 response. CRM implementation now in progress and going live by March 21.
8	IT Transformation	ICT Business Transformation - development of business case & implementation plan	•	Microsoft engagement delayed due to COVID but has now recommenced with engagement at ECO level. New plan to be worked up with Microsoft Q1 2021
9	IT Transformation	ICT Delivery Model – Project Dochas – programme implementation		Dochas Project Board met on 18 December 2020 and regular meetings now scheduled. Discussions under way with Wipro about a phase transition. Recruitment to key new posts in ICT under way but overall delayed due to COVID and COVID related critical priorities. Progress reports on Project Dochas will continue to be presented at the Corporate Resources Committee.
10	IT Transformation	Microsoft engagement to inform ICT Delivery Model and ICT Business Transformation	•	Microsoft engagement delayed due to COVID but has now recommenced with engagement at ECO level. New plan to be worked up with Microsoft Q1 2021.
11	IT Transformation	Strategic review of Line of business applications (ICT applications & systems)	•	New CRM delivery underway as above, Cloud migration and contracts in place for Housing systems, Revenues and Benefits and Care- first. Q1 focus now on Resource-link and Integra contracts & systems.

12	Leadership, Culture & Performance	Deliver a public engagement programme	•	Covid restrictions have required an adjusted approach, with the focus switching to online/virtual/media. This will be reviewed as soon as practicable.
13	Asset Management	Returning to Work - Offices and Schools implement affordable, flexible, prompt solutions	•	All schools remain sustainably and safely open in line with Scottish Government requirements. Notwithstanding delays due to Covid, progress on return to the workplace theme remains ongoing.

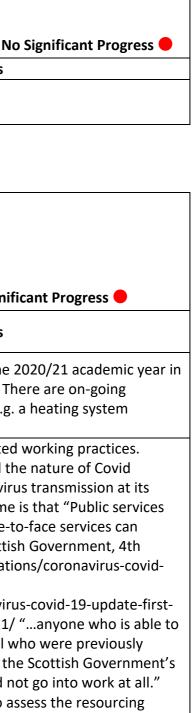

- 6.5 For phase 1 (end June 2020) and phase 2 (end Sep 2020), Members were advised at 23 November 2020 Recovery Board that 3 actions were outstanding under ICT Transformation and these are being taken forward with an aim to complete in Q1 2021.
  - Designation: Executive Chief Officer Transformation
  - Date: 15 January 2021

## Homeworking Guidance

## Published 23/12/2020

The purpose of this document is to provide comprehensive guidance to managers and staff about homeworking, to ensure employees can work safely and effectively from home and, achieve the best possible outcomes for themselves and the organisation.

Homeworking can seem like an attractive option when trying to balance work and home demands, but both employees and managers should be fully aware it does not suit everyone. To be successful, staff working from home need attributes to cope with working on their own. Some full-time homeworkers miss contact with other people and can experience feelings of isolation. Others find domestic demands distract them from doing their job effectively.

Homeworkers need a safe and reasonable space, security and privacy in which to work, and for office-type tasks, an internet connection which efficiently supports work systems.

All arrangements for monitoring, supervision, setting workloads, etc. should be agreed with the employee's line manager in line with normal procedures.

#### What if employees are unable to work from home?

Where an employee feels that their home does not provide a suitable working environment, they should discuss this with their manager to enable consideration of alternative arrangements.

## Implementing Home Working

Following Scottish Government guidance that "all staff who can homework should", all staff should familiarise themselves with the <u>COVID Resources</u> section of the HR web pages. These pages contain information on a variety of related issues, including a section on Wellbeing. Further links to specific guidance and resources are included in the relevant sections below.

## Health and Safety

Managers should ensure that staff working from home complete the <u>Homeworking Risk</u> <u>Assessment</u> and share results with their manager.

Managers should enquire regularly about their employees' wellbeing and seek to recognise early signs of <u>stress</u>.

Further information and advice on working from home can be found on the Occupational Health, Safety and Wellbeing Team web page - <u>Working from home</u>.

## Workstations – equipment and ICT kit

Line managers must ensure that any risks identified via the Risk Assessment are eliminated or reduced sufficiently. This should be done in consultation with employees to ensure that the home workstation meets the needs of the individual user.

Employees should be enabled to obtain any workplace equipment (e.g. docking station, monitor, chair, etc.) and ICT kit from their office location (where appropriate) which helps with setting up their workstation at home.

Managers are responsible to log any equipment issued to staff to work from home (including desks, chairs).

## ICT

In the context of the pandemic ICT is of critical importance and ICT colleagues have provided information and guidance at the following link covering all aspects of ICT for home workers <u>ICT and Home Working</u>

Managers should request any additional ICT kit on the behalf of staff members via the ICT Service Desk.

Requests should be co-ordinated i.e. if several people in a team need a webcam then the manager should submit one request covering each team members request.

## **Information Security**

Information governance should form part of discussions between the manager and employee to ensure suitable arrangements are in place at home to mitigate risk of breaches of confidentiality or security.

Security arrangements should be adopted and clarified in the homeworking agreement to ensure:

- Security and confidentiality of Highland Council equipment and information.
- No access of family and friends to work information
- Confidentiality of work conversations via phone/Skype/Teams
- Provision of secure containers.
- Protection of home computers and their links.
- Appropriate use of other communication links.
- Disposal of classified waste.

Additional information is available here Information Security Guidance

## Communication

Managers should maintain regular contact with their team members and consider how they will keep in touch in a way that ensures regular contact and appropriate levels of support. Employees should be involved in decisions about methods and frequency of communications with procedures in place to enable direct contact, including sharing of Outlook calendars. It is critical that employees feel part of the workforce and are involved in work issues and decisions and, have opportunity to initiate ad-hoc meetings where required.

The subject matter for communications in addition to current work should include the headings in this guidance where required. A <u>Homeworking Agreement</u> should be completed noting the key points of these discussions and any matters arising should be kept by the manager.

## Property

There will be no change to Council Tax or Domestic Rates. Domestic rate is only affected if the employee is carrying out a business from their home.

## Travel

Journeys made to the employee's administrative base cannot be claimed as travelling expenses, for business journeys where the starting and finishing point is the employees' home, the principles of the travelling expenses and subsistence allowance will apply. Until a change of contract amends the employee's base to be their home, their usual workplace continues to be deemed their work base.

In line with public health guidance, employees should not be asked to undertake non- essential travel or attend face to face meetings, including interviews, where there are reasonable alternative mechanisms. Any decisions to hold face to face meetings should be based on a risk assessment and discussions with the employee and/or their representative

#### **Tax Relief**

Council employees who are currently **required** to work at home on a regular basis may be able to claim tax relief for some of the additional expense incurred.

Relief can be claimed for any reasonable expenses relating to the requirement to work from home. Staff should be able to provide records of expenditure.

Expense incurred for things that staff use for both private and business use, e.g. rent or broadband access is not eligible for tax relief.

Employees should check their eligibility to claim tax relief via the form below. Managers can complete this form on an employee's behalf. Gov.uk – Check if you can claim work related expenses

If eligible, staff will be directed to a further link where they can make a claim. A Government Gateway ID is required. This takes approx. 10 mins to set up and the following information is required:

- employee's National Insurance number
- a recent pay slip or P60 or a valid UK passport

For further information relating to claiming tax relief for work expenses please see the Govt website below:

https://www.gov.uk/tax-relief-for-employees/working-at-home

Information about other sources of financial support can be found on the <u>Mental Health &</u> <u>Wellbeing toolkit > Money</u>.

#### **Management Responsibilities**

Highland Council will continue to follow public health and health and safety advice for their specific sectors, and, during the current phase of the Government route map, home working should continue where possible, for staff who have <u>not</u> been identified as "essential" to be in the workplace.

Managers should be aware that they will be managing work in new ways and managing different behaviours (their own and their team members). A key aspect for managers to accept is that employees who are agile will require to be managed by **outcomes** and not by the number of tasks completed or 'digital presenteeism'. Managers should therefore focus on planning the team and individual workloads with tangible outcomes.

Currently there are many employees working from home who would normally work in a traditional working environment or, only work at home on an ad-hoc basis. Some managers may never have worked with a remote team before and leading teams in this new setting will be completely new.

Managing employees who work at home or at another location requires a different approach to those in traditional face to face management.

A short module **Working as a Team Online** is available via <u>My Online Learning</u> within Leadership Management and Change > People Management.

Line managers must ensure that an effective management process is in place to monitor, supervise and evaluate the homeworking agreement.

#### **Ensuring staff Wellbeing**

It is important that managers understand how their team members are coping with remote working and that they show empathy and act quickly to address any difficulties team membershave.

Checking in frequently with phone calls, emails, chat and video calls will enable managers to spot any changes in mood or wellbeing. Regular contact will also provide opportunities to ensure team members continue to feel valued and motivated.

Where managers identify that a remote/home worker is not coping, they should know where to

signpost the person to and ensure they do so as soon as possible. Managers should also ensure follow up contact.

Please also see Wellbeing section below for a list of support resources available and useful tips for ensuring wellbeing while working from home.

## **Employee Responsibilities**

It is the responsibility of each employee to take reasonable care to ensure their own health, safety, and wellbeing; security of equipment and to maintain the working environment to the agreed health and safety standards.

Any equipment supplied by the Council should be used in line with the Council's <u>ICT Acceptable</u> <u>Use Policy (AUP)</u>. Adherence to the Highland Council Acceptable Use Policy is mandatory.

Employees will be responsible for ensuring any necessary confidentiality.

Employees who work at or from home will be covered by the terms of the Council's Code of Conduct.

Employees will be required to inform their home and contents insurer that extra IT equipment has been provided and that they are homeworking.

As there is a need to balance work and home life, employees should inform their friends and family about their homeworking arrangements to ensure minimal interruptions.

## Wellbeing

Positive wellbeing is critical to staff working productively, not least when staff are based at home, away from their usual place of work, line manager and work colleagues.

Managers have a <u>duty of care</u> to ensure the health, safety and wellbeing of staff, and must ensure staff have sufficient support and access to the range of wellbeing resources listed below.

<u>Employee Assistance Programme</u> – offers free confidential support 24hrs/365 days. This is available to both employees and their families. Managers can refer staff to support (with staff consent) or staff may wish to self-refer.

MHW toolkit My Online Learning – Preparing for the new normal MHW/Bullying & Harassment Contacts Violence & Aggression reporting (link tbc) Breath Awareness (audio)

#### Appendix 2

<u>Guided full body</u> <u>relaxation (audio)</u> <u>Tips</u> <u>for Working from Home</u>

Some additional tips to help ensure the wellbeing of all staff are included below.

**Stay connected** – to your manager, team and other colleagues, both formally and informally. Discuss and agree appropriate method(s) and frequency.

**Protect your time** – make effective use of Outlook calendars and Out of Office function – allocate time to tasks and try to stick to the plan. Let others know if you may not be able to respond straight away as well as preferred methods of contacting you (and when).

**Move regularly** – try not to sit for too long and take regular breaks away from your screen. Get up and walk about, get a cup of coffee or some water. Remember that you rarely sit for long periods in the workplace so try not to fall into this habit at home. Try standing for your next Teams meeting.

Even standing up, stretching your arms and circling your shoulders, then sitting back down can help!

**Walking meetings** – can you meet up with a colleague (socially distanced) and walk while you talk? You don't need to be together – you could each/all be walking somewhere separate!

Try to make use of daylight hours and get outside for a quick walk if possible. Talk with your manager about how you can work more flexibly allowing you to enjoy some time out during the day (where possible).

Make time for "commuting" to your next meeting – avoid back to back meetings where possible

Make time for breaks. If you are setting up meetings, why not schedule them for 20 or 50 mins instead of a full half hour or hour – your attendees will be grateful of some time to gather their thoughts before their next meeting.

Find a balance - flexibility versus putting pressure on yourself

Staff are also encouraged to communicate socially or join support networks

## Annual leave

Holidays are essential for our health and wellbeing. Regular breaks help us build resilience and avoid us feeling overwhelmed and "burn-out".

Managers are asked to approve leave requests wherever possible and ensure adequate cover to facilitate leave.

# Manager and Employee Checklists

The following checklists should be used to ensure that all steps have been taken to ensure the health, safety and wellbeing of staff working from home.
