•	Bev, Debbie and Teresa to meet to				
4	agree collaborative working. Strategy/Partnership Development				
<u></u> .	4. Strategy/Partnership Development 4.1 Services for Children and Young People Survey				
Bullet	points of discussion:				
•	There are two main strands to the repo	orting template.			
•	In the first strand, the government war	•	loing to better support		
	children and young people that are livi				
	and alcohol problems. They provided f	our case studies and we	had to describe what		
	processes and supports we have in pla	ace in in Highland for the	se situations, as well		
	as identify what more we need.				
•	The second strand is about family inclu	-			
•	The Integrated Children's Services Pa				
	Partnership has instigated a programmer via the Scottish Government. It takes a				
	families. That's everything from addition				
	and health visiting services right through				
•	Jennifer Baughan has been appointed				
	4.2 Residential Rehab Self - Assessm	ent			
Bullet	points of discussion:				
•	Health Improvement Scotland (HIS) ha				
	take forward improvements to resident	• •			
•	HADP has completed a self-assessme				
	will analyse and then work with us to p	-			
•	 The improvement plan will then be submitted to ScotGov probably in Oct for monitoring purposes. 				
	4.3 Public Protection Chief Officers Group Report 16.05.23				
Bullet	Bullet points of discussion:				
•	The purpose of the meeting attended	by the HADP Chair (Inter	im), was to look at the		
	challenges, successes of the group ar				
	Together.				
•	 Issues raised included capacity and recruitment, especially in rural areas. 				
•	 Another issue raised was that of stigma and discrimination 				
	4.4 Drug Death Taskforce Funding Letter 2022 – 23				
Bullet	points of discussion:				
•	 The drug death taskforce issued a letter advising that the money we received last 				
	 year should be invested in developing stabilisation services. As an ADP we are already doing this to some extent through investment in 				
•	Beechwood House. The Partnership Agreement with HADP provides funding to				
	explore the feasibility of establishing a safety and stabilisation service in addition to				
	the 5 beds that HADP fund, over and above the NHS contract.				
•	Beechwood have also secured £2.4 million to establish a Highlands and Islands				
	Recovery Centre. The resource will bring additional capacity to Highland as well as				
	Western Isles and Moray ADP areas.				
•	There is potential for us to use the money in other ways and still meet the				
A - 4'	government requirements due to the funding we have already invested.				
Action	points	Lead/responsible	Time scale		
Resid	ential rehab collaborative meeting to	TG/BF	June 2023		
	e HIS and initiate improvement				
	process.				
	Performance Management		<u> </u>

5.1 Dashboard				
 5.1 Dashboard Bullet Points of Discussion : Frances shared the dashboard We're remaining consistent for the waiting times, the target is 90% of people to be seen within three weeks and we're at 88%. We were 87% for the last quarter so there has been a slight improvement. We are above the levels for community distribution of Naloxone. We're sitting at 45% above the expected target for the Highland Health and Social Care Partnership area for ABI's delivered. 5.3 Progress Reports – Partners and Funded Projects Bullet Points of Discussion : Thank you to partners for sending in a progress update, these have been shared with the papers. HTSI- There has been some really positive feedback on the Local Improvement Fund (LIF) and Participatory Budgeting initiative. Projects are just getting started so we look forward to providing more detailed reports in the future Thank you to HTSI for the participatory budgeting events, they were very well attended and enabled HADP to reach in to local communities. Café 1688 – Did 4 times the amount of meals than they expected last year. They have received really positive feedback. People feel it's a supportive community and safe place. Recovery Worker Training Project (RWTP) – Struggled to fill all of the available places this year but the 1 year Development Officer post funded via HADP has a remit to increase uptake and extend placement options, so there should be improvements going forward. 				
 Custody Link Workers – The initial programme was to run for three years, the pandemic has knocked that slightly. It is due to end in June but thanks to the HADP funding will run a little longer to allow the case load to be wound down. Evaluation will be completed by Stirling University with an event being organised to feedback on the evaluation. 				
Action Points	Lead / responsible	Time scale		
 Mhairi, Debbie and Liz to meet to discuss potential short-term funding solutions that may further support the Custody Link project. 	MW/LS/DS	June 2023		
6. Housing First Pilot				
Bullet Points of Discussion :				
 The Housing First project was Initiated and funded through the HADP in partnership with the Drug and Alcohol Recovery Service, Salvation Army and Housing Department. It has run for three years now. Catriona Matheson from Stirling University has completed an evaluation of the project for us. The report is included in the papers for this meeting. The summary evidences there can be improvements for people with complex needs, including those at high risk of drug related death, when provided with a permanent tenancy and the intensive outreach support provided by the project. The report also looked at the Housing First project in relation to delivering the MAT 				
 standards; there was positive feedback on this. Unfortunately, Highland Council has withdrawn from the project. A seminar was held on the 20th of April, to discuss the findings, it was decided that if we wish to mainstream housing first approaches then work is required to set out the 				

Highland model and establi such as DARS and Housing complex needs. Due to lack this work and plans to discu role.	g will work c of capacit	in partnership to n y the HADP supp	neet the ort team	needs of people with is unable to lead on
